

PROOF OF ANNUAL LABOR: 1967

The undersigned hereby certifies that annual assessment work for the assessment year ending September 1, 1967 was done on the Mammoth group of lode mining claims located in an unknown mining district in the Roberts Creek Mountains approximately 25 miles in a straight line northwest of the town of Eureka, Nevada. This group consists of 82 contiguous claims, Annie Nos. 1-30, Peggy Nos. 1-9, Nilah Nos. 1-16, Antje Nos. 1-23 and Jan Nos. 1-3. Certificates of Location of the Jan Nos. 1-3 are recorded in the Eureka County Mining Records, Book 0, pp. 20-23; those of the Annie, Peggy, Nilah and Antje claims are recorded in Book 9, pp. 52-130 inclusive.

Assessment work on the Mammoth group of claims for 1967 consisted of the following: West Texas Drilling Company drilled two core holes, beginning on August 28 and ending September 27, 1966. Core hole #2 located on Nilah #7 was drilled and/or cored to a depth of 501 ft. Core hole #3 located on Annie #2 was drilled and/or cored to a depth of 352 ft. Core hole #1, 2 & 3 were logged by electric log, S.P. and gamma ray methods. The cores and samples were assayed by Union Assay of Salt Lake City and also by geochemical methods. Total expenditures on drilling, logging and assaying were in excess of \$8200.00 or more than \$100.00 per claim. These operations were for the purpose of evaluating and improving the claims within the Mammoth block and for the benefit of all the claims. This work was done at the expense of Shell Oil Company, owner and/or optioner and assignee of the Mammoth group of lode claims. Included in this group are Jan Nos. 1-3 which are under option to Shell Oil by the owners Maynard and Lester Bisons of Eureka, Nevada.
