Certificate of Location of Lode Mining Claim

below, on the decidence of the day of March 1968 The general course of said lode or vein is structured by and March 2001. The claim is situated in the Contage Structured and parable of the late of the center of the vein or lode along the entire length of said claim. The dimensions and locations of the discovery work done on the claim are as follows: The corners and side centers of the claim are located and marked as follows: The corners and side centers of the claim are located and marked as follows: The orners and side centers of the claim are located and marked as follows: From the Part Late of the corner, a monument marked late 2 N.W. Cor, thence in a said center, a monument marked late 2 N.W. Cor, thence in a late of the late of	THIS IS TO CERTIFY that the Land 2 Lode Mining Claim was
The claim is situated in the Content Mining District, Country, State of Nevada, This Clause of the Mining District, Country, State of Nevada, This Clause of the Mining District, Country, State of Nevada, This Clause of the Mining District, Country, State of Nevada, This Clause of the Mining District, Country, State of Nevada, The locator claims The locator claims direction and 1200 feet in a Southerly direction from the point of discovery, with a width of 500 feet in a Minitary direction from the point of discovery, with a width of 500 feet on each side of the center of the vein or lode along the entire length of said claim. The dimensions and locations of the discovery work done on the claim are as follows: The dimensions and locations of the discovery work done on the claim are as follows: The total cost of such work consisted of at least \$100. The corners and side centers of the claim are located and marked as follows: From the Nath Mark corner, a monument marked Alax A.M. Our, thence in a South East by direction to the South Sout	located by Allen Russell , whose post office address appears
The claim is situated in the California and general state for the claim is strated as the state of Newada, This Claims as the state of parallels for the first which of the nearly first locator claims. 300 feet in a Santhery of the market of the market of the market of the market of the claim are as follows: The dimensions and locations of the discovery work done on the claim are as follows: The dimensions and locations of the discovery work done on the claim are as follows: The dimensions and locations of the discovery work done on the claim are as follows: The total cost of such work consisted of at least \$100 to the claim are located and marked as follows: From the Planta Market corner, a monument marked blanta N.M. Cor., thence in a state factory direction to the state factory direction to the state factor of the claim are located and direction to the Santha side center, a monument marked blanta side center side side side side side side side side	below, on the day of Masch, 1968
The claim is situated in the California and general state for the claim is strated as the state of Newada, This Claims as the state of parallels for the first which of the nearly first locator claims. 300 feet in a Santhery of the market of the market of the market of the market of the claim are as follows: The dimensions and locations of the discovery work done on the claim are as follows: The dimensions and locations of the discovery work done on the claim are as follows: The dimensions and locations of the discovery work done on the claim are as follows: The total cost of such work consisted of at least \$100 to the claim are located and marked as follows: From the Planta Market corner, a monument marked blanta N.M. Cor., thence in a state factory direction to the state factory direction to the state factor of the claim are located and direction to the Santha side center, a monument marked blanta side center side side side side side side side side	The general course of said lode or vein is Southely and Northely
The locator claims 300 feet in a Southery much storth of the menths of the menths of the claims and 1200 feet in a Menthery direction and 1200 feet in a Menthery direction from the point of discovery, with a width of 6.00 feet on each side of the center of the vein or lode along the entire length of said claim. The dimensions and locations of the discovery work done on the claim are as follows: The dimensions and locations of the discovery work done on the claim are as follows: The dimensions and locations of the discovery work done on the claim are as follows: The total cost of such work consisted of at least \$1000. The corners and side centers of the claim are located and marked as follows: From the North Mass corner, a monument marked Late 2000, thence in a South Late by direction for the South Mass of the center, a monument marked Late 2000, thence 2000 feet to the South Mass of the center, a monument marked Late 2000, thence 2000 feet in a Mass of the center, a monument marked Late 2000 feet in a Mass of the center, a monument marked Late 2000 feet in a Mass of the late 2000 feet in a Mass	The claim is situated in the Mining District Charles
The locator claims 300 feet in a Santhery direction and 1200 feet in a Santhery direction from the point of discovery, with a width of side of the center of the vein or lode along the entire length of said claim. The dimensions and locations of the discovery work done on the claim are as follows: Like the said of the center of the vein or lode along the entire length of said claim. The dimensions and locations of the discovery work done on the claim are as follows: Like the said of the center of the discovery work done on the claim are as follows: Like the said the said of the said that the said the said of the said that the said the said that the said of the centers of the claim are located and marked as follows: From the Nath Was to corner, a monument marked said to said the said of the said that the said of the said of the said that the said of the s	County, State of Nevada, The Claim forms and parallel Ida Ir.
direction and 1200 feet in a Matherity direction from the point of discovery, with a width of 600 feet on each side of the center of the vein or lode along the entire length of said claim. The dimensions and locations of the discovery work done on the claim are as follows: The dimensions and locations of the discovery work done on the claim are as follows: The total cost of such work consisted of at least \$100. The corners and side centers of the claim are located and marked as follows: From the North West corner, a monument marked and #2 N.W. Cor., thence in a destile Leaterly direction 600 feet to the Scritch West corner, a monument marked Ada #3 S.W. Cor., thence 750 feet in a Activity direction to the Scritch direction to the Scritch and direction to the Scritch and activity direction to the Activity direction to the Activity direction to the Matherity to the point of beginning. Each of the above described monuments is a Roser Y"X"X"X"X"X Y & full field.
