Approximately 170,000 cubic feet of material was excavated from the above cuts.

This claim is one of a group of ten contiguous claims, being the W-1, W-2, W-3, W-4, W-5, W-7, W-8, W-12, W-13 and W-17, for whose benefit the excavations described above were made. During the course of said excavation work, more than \$1,000.00 was expended for said work on said group of ten claims, which did advance the exploration and development of all claims in said group.

Each corner or side center of said claim is marked with a 4" x 4" wooden post, 4½ feet long, set one foot of its length in the ground, said posts being located and marked (markings are on metal tags affixed to said posts) as follows (bearings and distances are approximate): "SW COR W-17 "; thence northerly for a distance of 750 feet to a post marked, "WSC W-17 "; thence northerly for a distance of 750 feet to a post marked, "NW COR W-17 "; thence easterly for a distance of 600 feet to a post marked, "NE COR W-17 "; thence southerly for a distance of 750 feet to a post marked, "ESC W-17 "; thence southerly for a distance of 750 feet to a post marked, "SE COR W-17 "; thence westerly for a distance of 600 feet to the point of beginning.

The northwest corner of this claim is approximately 3,560 feet S 34° W from the Windfall Mine Shaft, which shaft is on the patented Windfall Claim, U. S. Survey No. 3705, Eureka County, Nevada.

All location and discovery work necessary to complete this location have been performed by September 27, 1968.

Dated this 27th day of September, 1968.
