

## EAST UTAH MINING COMPANY

INCORPORATED 1922

863 FIRST SECURITY BUILDING

SALT LAKE CITY, UTAH 84111

DAVID H. GLEGG  
PRESIDENTTELEPHONE 383-1111  
AREA CODE 801AFFIDAVIT OF ANNUAL ASSESSMENT WORK  
ON UNPATENTED LODGE MINING CLAIMSSTATE OF NEVADA )  
COUNTY OF EUREKA ) ss.

In accordance with the requirements of R.S. #2324 (30 U.S.C.#28) and #517.220 and 517.230 N.R.S. East Utah Mining Company has expended more than one hundred dollars (\$100.00) on or for the benefit of each of the following named contiguous unpatented lode mining claims during the annual assessment year ending at 12:00 o'clock, Meridian, on the first day of September, 1969; situate in Eureka County, Nevada; known and described as follows:

Chicago No. 2	Chicago No. 7
Chicago No. 3	Chicago No. 8
Chicago No. 4	Chicago No. 9

The property is located in the south-central portion of Section 4, T. 35 N, R 50 E, M.D.B.M., and lies contiguous with and/or adjacent to the Blue Star claims group.

The work consisted of a geochemical survey on portions of the Chicago No. 2, Chicago No. 3, Chicago No. 4, Chicago No. 7, Chicago No. 8 and Chicago No. 9 claims.

The survey was conducted by or under the direct supervision of M. C. Godbe, III, a graduate geologist with over twenty (20) years experience in exploration geology. Mr. Godbe's address is:

2765 East 3900 South  
Salt Lake City, Utah 84117

The total cost of said geochemical survey is in excess of six hundred dollars (\$600.00). Work was accomplished for the benefit of each and all of the above mentioned claims.

Attached hereto, and hereby referred to and by this reference made a part of this affidavit is a property map showing location of the geochemical survey relative to the boundaries of said claims, which property map is designated as Exhibit "A"; and also attached hereto, hereby referred to and by this reference made a part of this affidavit are traverse profiles showing results of the geochemical survey, which traverse profiles are designated as Exhibit "B"; and also attached hereto, hereby referred to and by this reference made a part of this affidavit

BOOK 30 PAGE 442

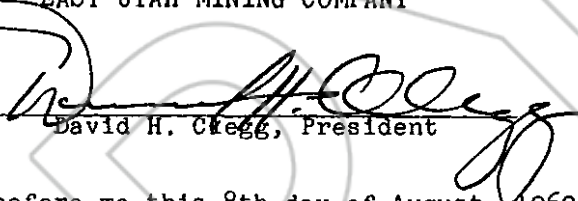

is a Sample Analysis List showing numbers and analyses of geochemical samples, which sample list is designated as Exhibit "C".

Basic findings of the survey indicate that soil sampling for geochemical trace elements in the upper plate rocks is non-definitive on a restricted areal collection basis. Rock chip samples collected from both horizontal and vertical stratigraphic positions in upper and lower plate rocks indicates:

Silver - non definitive  
Arsenic & Antimony - indicator gangue mineral  
Mercury - indicator gangue mineral (spotty wide variation)  
Barium - indicator gangue mineral  
Strontium - probable deficiency indicator  
Gold - erratic

Dated this 8th day of August, 1969

EAST UTAH MINING COMPANY

By   
David H. Clegg, President

Subscribed and sworn to before me this 8th day of August, 1969
