COMPANY Ruby Hill
MINE Truckee Co., Nev.

April 14, 1971

DECISION

Ruby Hill Mining Company :
c/o U.S. Smelting Refining and :
Mining Company : Right-of-way
P. O. Box 1980 :
Salt Lake City, Utah 84110 :

RIGHT-OF-WAY GRANT AMENDED

Right-of-way, Nevada 056230, was granted October 6, 1960, for a drainage ditch pursuant to the provisions of the Act of February 15, 1901. By decision dated August 12, 1965, the right-of-way grant was amended to allow the grantee an additional five years to complete construction and file proof thereof.

On July 14, 1970, the grantee filed an application for a second extension of time to complete construction and the reasons given for delay in constructing the ditch during the first 10 year period are sufficient justification to grant the extension over lands remaining in Federal ownership. Accordingly, the right-of-way grant is amended to allow 15 years from the date of the original grant in which to file proof of construction.

This amendment is subject to all valid rights existing on date of this decision.

Rental in the amount of \$288 has been paid for the five year period ending December 31, 1975.

Proof of construction must be submitted on or before October 6, 1975.
