

AFFIDAVIT OF ANNUAL LABOR AND IMPROVEMENTS
FOR
ASSESSMENT YEAR ENDING SEPTEMBER 1, 1974.

CITY OF CALGARY)
)ss.
PROVINCE OF ALBERTA)

NOTICE IS HEREBY GIVEN THAT Swiss Oils of Canada (1959) Ltd., a Dominion of Canada corporation, has caused work to be done and/or improvements made as follows on the following-named unpatented lode mining claims situated in the Lynn Mining District, Eureka County, State of Nevada:

Ruth Poorman Lookout, Lookout Fraction

The work consisted of geological surveys within the outside boundaries of said contiguous blocks and individual claims.

*Hand trenching and taking of samples.
Completion of radio metric surveys.*

Work was performed by and/or under the direction of:

G. Warren Hunt
1119 Sydenham Rd.
Calgary, Alberta
Canada

Graduate geologist, B.Sc. California Institute of Technology, 1945; Member Ass'n. Professional Engineers, Geologists & Geophysicists of Alberta. Mr. Hunt has practiced his profession in the mineral exploration field since graduation.

William C. Lage
No. 21 Trailer Estates Park
Winnemucca, Nevada 89445
U.S.A.

Graduate 1941 Mackay School of Mines, University of Nevada. Mr. Lage has practised his profession of geology in the State of Nevada and adjoining areas since graduation.

Francis Leslie Groteau
#11, 675 West Hastings
Vancouver, B.C.
Canada

*Graduate Geological Engineer
University of Saskatchewan 1936
Mr. Groteau has practiced his
profession in the mineral exploration
field since graduation*

The geologic surveys were performed independently of one another and were non-repetitive of any other surveys. Surveys were directed toward the economic evaluation of mineral potential of the subject claims based upon environment of existing gold deposits in the district, comprehensive on-the-ground field examination and evaluation of work completed to date.

Basic findings confirm earlier surveys showing that the claims group is underlain by geology similar to that underlying the existing producing properties in the district and is thus favorable for deposition of economic deposits of precious metals, particularly gold and are in furtherance of the information gained in earlier surveys and follow the recommendations made in said earlier reports. In each instance an exploration-development program was recommended encompassing further geological, geochemical and geophysical work, to be followed by drilling, assaying and feasibility mining and heap leaching tests by volume sampling and metallurgical recovery programs.

Said work was performed and improvements made at the request of the owner, Swiss Oils of Canada (1959) Ltd., and had a value in excess of One Hundred (\$100.00) Dollars for each claim.

The undersigned is the Secretary/Treasurer of said Swiss Oils of Canada (1959) Ltd. and is the person who directed the performance of such labor and improvements.

Said labor was performed and improvements made between 12:00 o'clock meridian on September 1, 1973 and 12:00 o'clock meridian on September 1, 1974.

Dated this 27th day of August, 1974.
