I, Bert C. Morrison, geologist for ASARCO Incorporated, a New Jersey corporation, do affirm that the following work was done on and for the benefit of the Rat Claim Group in sections 9, 10, 15, 16, 21, 22 and 27, T18N R53E MBDM, Eureka District, Eureka County, Nevada, for the assessment year ending August 31, 1975. The said 27 unpatented lode claims are contiguous and are named RAT 1 through 27.

The work consisted of an induced polarization survey over the above mentioned claims during the period August 20 through August 26, 1975, under the direct supervision of Ralph Falconer, geophysicist for ASARCO Incorporated. The work was done for the locators of said claims, Maynard Bisoni and Lester Bisoni of Eureka, Nevada.

The total amount expended was over \$2700.00 which represents more than the required \$100.00 per claim. The itemization of expenditures as well as the results of the survey are on file at ASARCO Incorporated, Salt Lake City, Utah office.
