

AFFIDAVIT OF PERFORMANCE OF ANNUAL LABOR

STATE OF NEVADA,)
) ss.
COUNTY OF WASHOE.)

M. Craig Haase, being first duly sworn upon his oath, deposes and says:

He is a citizen of the United States of America and more than twenty-one (21) years of age; he resides in the County of Washoe, State of Nevada; he is personally acquainted with those certain unpatented mining claims situate in the Carlin Mining District, Eureka County, Nevada, the names of which and the books and pages of the records in the office of the County Recorder of Eureka County, Nevada, wherein the location certificates thereof are recorded as follows, to-wit:

<u>Name of Claim</u>	<u>Book</u>	<u>Page</u>
Etowah No. 1	64	578
Etowah No. 2	64	579
Etowah No. 3	64	580
Etowah No. 4	64	581
Etowah No. 5	64	582
Etowah No. 6	64	583
Etowah No. 7	64	584

The foregoing seven (7) unpatented lode mining claims are all contiguous. The Etowah No. 1 through 7 mining claims are subject to a lease and option to purchase agreement to Chemical Products Corporation from Harry Price and Delbert Reese.

Affiant is Nevada counsel for Chemical Products Corporation and is retained by them to file this affidavit with respect to the performance of work and labor on the said Etowah No. 1 through 7 mining claims and is duly authorized to make this affidavit for Chemical Products Corporation with respect to said claims.

Between the first day of September, 1978 and the 31st day of July, 1979, at least SEVEN HUNDRED AND NO/100 DOLLARS (\$700.00) in value of work and improvements were done and performed upon and for the benefit of said mining claims, not including any location work on said mining claims, as hereinafter more particularly set forth. The majority of this work was performed in April through July, 1979.

Said work and improvements were done and performed by Richard H. Olson, consulting geologist, Don R. Randolph, Manager of Research and Development for Chemical Products Corporation, and S. D. Beardon and Ray Dellinger, geologists for a subsidiary company of Chemical Products Corporation. Said work and improvements so done and performed comply with the laws of the United States of America and the State of Nevada pertaining to assessment work or annual labor for the annual assessment year ending at noon, September 1, 1979 and said work was performed for the benefit of said mining claims for the purpose of exploration and possible development of the mining claims. The following is a description of the work done, to-wit: the access road to the mining claims in question was laid out and staked; surface geology of approximately 6,000 feet of strike length within the claims was walked out and the stratigraphic sequence and high angle faulting was geologically mapped; samples were taken, identified and examined; all locations of float barite ore were marked with lath and flagging and geologically mapped. Bull dozer and drilling sites were located and marked and at such sites diggings were

made to insure the continuity of ore stratigraphy.

The claim map showing the above-identified mining claims has been filed with the County Recorder of Eureka County, State of Nevada. The Bureau of Land Management Parent Serial Numbers are N MC-25019 through N MC-25025.
