

ANNUAL ASSESSMENT WORK

(PROOF OF LABOR)

STATE OF NEVADA }
County of EUREKA } ss.

The undersigned, in whose behalf the following described work was performed or improvements made, certifies that at least \$2,100.00 Dollars were expended, and/or the following labor expended or improvements made having a value thereof, consisting of:

geologic mapping and sampling and compilation of the detailed
(Describe Character and Location of Expenditures or Labor or Improvements)
report attached as Exhibit "A" to this Proof of Labor, in compliance
with Title 30, United States Code Section 28-1, for the Lead Bar-
Belmont group of 20 unpatented mining claims. All posts have been
surveyed and re-monumented.

were performed and made upon Belmont, Lead Bar 1 thru 9, Lead Bar 11 thru 13,
Lead Bar 16 and 17 and Lead Bar 19 thru 24; BLM Serial Numbers
(Insert Name(s) of Claim(s))
N MC-120700 thru N MC-120720

located on mining claim(s) in Section 25, 36, Township 24N, Range 50E, situated in the
Antelope Mining District of the County of Eureka State of
Nevada, during the year ending 12:00 Noon, September 1, 1980.

The claim map showing said claim(s) is filed as Document No. 56301 in the
Eureka County Records.

The work described above was performed on August 22 thru September 3, 1980
(Insert Dates that Work Performed)
by David C. Jonson, Gary L. Grauberger, Dane Oberhansli
(Insert Names of Persons, Corporation or Contractor who Performed the Work or made the Improvements.)

Such expenditure was made by or at the expense of U. S. Minerals Exploration
Company for Hugh M. and Kathryn Baldwin.

owner(s) of said claim(s) for the purpose of holding said claim(s).

NOTE 2: "Each locator shall file two copies of a map prepared in accordance with NRS 517.030 with the county recorder in which the claim is located not later than September 1, 1972." NRS 517.230, Subsection 3.

EXHIBIT "A"

TO

PROOF OF LABOR

Dated September 10, 1980

This detailed report is filed in compliance with the requirements of Title 30, United States Code Section 28-1 for the Belmont-Lead Bar group of 21 contiguous unpatented mining claims, N MC-120700 thru N MC-120720, situated in the Antelope Mining District, Eureka County, Nevada.

The work consisted of geologic mapping and geochemical sampling of the entire claim group and adjacent area. The work was done to evaluate the potential for valuable mineral deposits and assist in further exploration and development work.

The work was performed by David C. Jonson of 1530 Alkire Street, Golden, Colorado 80401, a geologist with his MS Degree from the Colorado School of Mines, Golden, Colorado and 25 years experience in the mining exploration industry.

Mineralized and altered zones occur in the Ordovician Vinini formation and in fault zones in the Devonian Devils Gate formation. The Vinini formation has been thrust over the underlying Devils Gate formation and a few highly altered intrusive dikes were noted. Initial geochemical results indicate that the altered rocks in both the Vinini formation and Devils Gate formation are anomalous in As, Au, Ag, Sb and Pb.

The geologic map and sample results are available at U. S. Minerals Exploration Company's offices located at 12305 W. 53rd Ave., Suite G10, Arvada, Colorado 80002.
