THE OWNER INTENDS TO HOLD THE CLAIMS AND IN ACCORDANCE WITH
THAT INTENTION, AND FOR THE PURPOSE OF COMPLYING WITH THE LAW, SETS
FORTH THE FOLLOWING INFORMATION:

(a) Each of the claims has been recorded pursuant to state
law and filed in the above-named office of the Bureau of Land
Management. The serial number assigned to each of the claims by the
United States Bureau of Land Management upon the filing of a copy of
the official record of the location notice or certificate provided
for by state law is set forth opposite the name of such claim in
Exhibit A hereto, in compliance with the requirement of 43 U.S. Code
§ 1744(a)(2) to file an additional description of each of the
claims.

(b) There has been no change in the mailing address of any
Owner of the claims, so far as is known, except ~~as follows~~
as indicated above.

(c) Each of the lode or placer mining claims listed in
Exhibit A hereto is held and claimed by the Owner for the valuable
mineral contained therein; but if and to the extent that mill sites
or tunnel sites or both are listed in Exhibit A hereto, such sites
are held and claimed by the Owner for the purposes authorized by law,
to wit: 30 U.S. Code § 42, and 43 Code of Federal Regulations
§ 3844.1 as to mill sites, and 30 U.S. Code § 27, and 43 Code of
Federal Regulations § 3843.1 as to tunnel sites.

(d) The Owner intends to continue diligent development of
each of the lode or placer mining claims listed in Exhibit A hereto.

(e) Reason for this Notice [CHECK ONLY ONE]:

The mining law [30 U.S. Code § 28] does not require the performance of assessment work in the assessment year within which a mining claim is located. The mining claims listed in Exhibit A hereto were located between noon September 1, 1979, and midnight December 31, 1979. Therefore, no assessment work was required for the assessment year ending at noon on September 1, 1980, and no evidence of annual assessment work is or was required to be filed for said assessment year. The Owner respectfully submits that the foregoing circumstances, and the failure of the regulations specifically to provide for claims so located, constitute the reason that the annual assessment work has not been performed or an affidavit of assessment work performed or a detailed report of geological, geochemical or geophysical survey under 30 U.S. Code §§ 28-1 and 28-2, and 43 C.F.R. § 3833.2-2 has not been filed. [NOTE: The three blanks for the years in this subparagraph should be filled in as follows: The first and second blanks are for the calendar year in which the mining claims were located, and the third blank is for the calendar year in which this Notice of Intention to Hold must be filed.]

The mining law [30 U.S. Code §§ 28b-28e] provides for deferment of the performance of assessment work by the Secretary of the Interior where a claim or claim group is surrounded by lands over which a right-of-way for the performance of such assessment work has been denied or is in litigation or is in the process of acquisition under state law or where other legal impediments exist which affect the right of the claimant to enter upon the surface of such claim or claim group or to gain access to the boundaries thereof. The Owner has petitioned the Secretary of the Interior for such deferment and:

(1) A notice to the public of Owner's petition was filed or recorded in the office of the clerk, recorder, or register of deeds in the county or equivalent local jurisdiction, where the location notice or certificate for each of the claims is filed or recorded, on _____, 19____, in Book _____, at _____, AND

(2) A copy of the petition for deferment is attached hereto as Exhibit B and by this reference made a part hereof and incorporated herein for all purposes, TOGETHER WITH

(3) A copy of the order or decision granting a deferment upon said petition, which decision is in effect on the date this Notice of Intention to Hold is required to be filed, if available, which is attached hereto as Exhibit C and by this reference made a part hereof and incorporated herein for all purposes. If no such order or decision is attached hereto, the reason is that the petition for deferment has not been acted on by the authorized officer of the Bureau of Land Management or that, if acted upon, the order or decision has not yet been received by the Owner of the claims.

While assessment work has not been performed with respect to the mining claims listed in Exhibit A hereto, during the assessment year ended at noon on September 1st now just past, the Owner intends to resume or has resumed such work as permitted by the mining law [30 U.S. Code § 28], and intends to continue to hold such claims.

(f) Assessment work, as defined in the mining law [30 U.S. Code §§ 28, 28-1, and 28-2], is not required with respect to mill sites and/or tunnel sites. As to each tunnel site listed in Exhibit A hereto, work on the tunnel has been prosecuted with reasonable diligence during each of the following past six-month periods: _____, and _____, and _____, and the Owner intends to continue to

prosecute work on the tunnel with reasonable diligence for the discovery of a mine, vein or lode and/or for the development of the vein or veins or lode or lodes developed thereby. As to each claim-related mill site listed in Exhibit A hereto, the Owner intends to continue to use and/or occupy such mill site for mining or milling purposes, and as to each independent mill site listed in Exhibit A hereto, the Owner intends to continue to use such mill site for the purposes of a quartz mill or reduction works.

(g) The date on which a copy of this Notice of Intention to Hold was filed in the office of the county clerk, recorder, or register of deeds in the county or equivalent local jurisdiction in which the claims are located will appear in the certificate of recording in the office of the local jurisdiction in which the claims are located, ~~as recorded hereto~~, which date is by this reference incorporated in this paragraph (g). If only mill sites or tunnel sites, or both, are listed in Exhibit A hereto, this Notice of Intention to Hold need not be recorded locally and is filed with the Bureau of Land Management only, as a letter from the Owners.

THIS NOTICE IS EXECUTED BY: the Owner, one of the Owners in behalf of all of the Owners, all of the Owners, or the Owner's agent, who is an officer of the Owner, an employee of the Owner, or otherwise acting in behalf of the Owner and pursuant to authorization by the Owner, OR BY: the lessee, one of the lessees, the optionee, one of the optionees, or the agent, officer, or employee of a lessee or an optionee, acting in behalf of the Owner and as agent for the Owner.
