T17N, R53E; Sec. 36, T18N, R53E, Eureka County, Nevada,
consisted of:

1. 12000' of new roads were completed to 19 drill sites

drill holes were completed on claims LM 1-3, 6-9,
and 18, with a cumulative footage of 2990'. Total
drilling costs were \$20,183.25 using a cyclone drill
with Pollock Drilling Company of Ely, Nevada.
3. Between January 10 and February 3, 1982, additional
cat work was required on the claim group to keep

Such work cost, and is valued at, in excess of \$29,000.00.

As a result of the above work, sufficient ore was detected to justify additional testing and drilling of the type which normally precedes the development of a mine.

All of the aforesaid 67 unpatented lode mining claims are contiguous and work on any one claim or group of claims tends to develop all the claims. The work was performed for the purpose of developing the mineral potential of the claims, and to maintain and hold such claims.
