EXHIBIT "A"

Introduction

The following geologic report is made for the purpose of assessing the quality and quantity of the mineral reserve of Union Carbide's Pine Valley, Nevada, claims.

Work Location

The field examination was over the exposed zeolitized beds within the claim boundaries of Pine 7, 8 and 9.

Nature of the Work

The pit areas were examined for the purpose of determining the extent of the zeolite as exposed in the stripped areas.

Cost of the Work

The total cost of performing this work is in excess of \$1,500.

Findings

The zeolite resource within the claim boundary is 370 M tons. The mine reserve on that which is stripped or mined totals approximately 50 M tons.
