

AFFIDAVIT OF ANNUAL ASSESSMENT WORK

STATE OF COLORADO)
) ss.
 COUNTY OF JEFFERSON)

ROBERT F. HEMMING, of lawful age, being first duly sworn, based upon his personal knowledge and belief, states as follows:

1. That this Affidavit is made on behalf of the owners of the contiguous claims described on Exhibit "A" attached hereto and made a part hereof.
2. The owner of said claims is U.S. Minerals Exploration Company (USMX of Nevada), a Colorado corporation, qualified to do business in Nevada, whose current mailing address is 12189 Ralston Road, Suite 200, Arvada, Colorado 80004.
3. That in excess of \$100.00 worth of labor was performed or improvements made upon or for the benefit of each of said claims during the period September 1, 1982 to September 1, 1983.
4. That the character of the labor performed or improvements made was geologic mapping, channel sampling and soil sampling, which work is detailed on the attached Exhibit "B" as required by Title 30, United States Code, Section 28-1.
5. That the foregoing work was done for the assessment year ending September 1, 1983.
6. That the party having an interest in the claims and at whose expense the labor was performed or improvements made is U.S. Minerals Exploration Company.

Dated this 19th day of September, 1983.

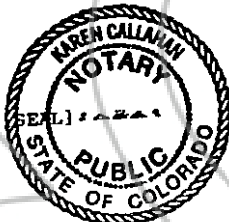

U.S. MINERALS EXPLORATION COMPANY

SUMMARY REPORT

This detailed report is filed in compliance with the requirements of Title 30 U.S.C. 28-1 for those claims shown by Exhibit "A".

The work consisted of a rock chip sampling program, geologic mapping and related activities during the month of August, 1983. The work was done to further evaluate the potential for valuable mineral deposits and assist in further exploration and development work.

The work was performed by Gary L. Graubarger, a geologist with twelve years experience in exploration with a degree from the University of Colorado, David J. May, a geologist with seven years experience in exploration with a degree from the University of Texas (Austin) and Robert F. Hemming, a geologist with seven years experience with a degree from Colorado State University.

An exploration program consisting of further geologic studies and exploratory drilling is under consideration for this property. All technical data resulting from the sampling program and related activities are in the possession of U.S. Minerals Exploration Company.

Mineralized and altered trends were identified by the sampling program which underlie portions of the claim group.
