Geophysical Report

This detailed report is filed in compliance with the requirements of Title 30, U. S. Code, Section 28.1 for the "DP" Claims Nos. 1 - 36, and is attached to and made a part of that certain Proof of Performance and Completion of Annual Assessment Work prepared by MAPCO Minerals Corporation and dated August 28, 1984.

A reflection seismic survey was performed by Cooksley Geophysics, Inc. and paid for by MAPCO Minerals Corporation. The cost of the survey was \$4,000.00. The survey was performed along the line shown on the attached map. Mr. James Cooksley and Sheryl Siegmann were in charge of field operations and data acquisition. The work consisted of shooting seismic and various points to evaluate the stratigraphy and structural control existent in the area to assist in planning for further exploration and development work. Mr. Cooksley has a Professional Engineering Degree from Colorado School of Mines and he has 28 years experience in geophysical data acquisition and interpretation. Ms. Siegmann has a Masters Degree in Geology from the University of Idaho and has 3 years experience. Initial interpretations of the data suggest a thick bed of alluvial cover over the "DP" Claims.
