

AFFIDAVIT OF ANNUAL
ASSESSMENT WORK :

TO WHOM IT MAY CONCERN:

The undersigned, COMINCO AMERICAN, INCORPORATED, BUCKHORN OPERATION, by and through its agent or agents, certifies that it expended more than One Hundred Dollars (\$100.00) per claim for development, labor, and improvements, or equivalent value added, as the annual assessment work for the assessment year ended September 1, 1986, for each and every one of the unpatented lode mining claims located in Eureka County, Nevada, Sections 7, 8, 17, 18, and 19, Township 26 North, Range 49 East, M.D.B. & M.

CLAIMS

Willow 5050-5063
Willow 5150-5163
Willow 5250-5263
Willow 5350-5363
Willow 5450-5456

BLM REGISTRATION

NMC 318142-318155
NMC 318156-318169
NMC 318170-318183
NMC 318184-318197
NMC 318198-318204

All of the aforementioned claims are owned by:

COMINCO AMERICAN INCORPORATED
P. O. Box 847
Carlin, Nevada 89822

The work, development, and improvements were performed or made by the following individuals or companies at the direction of and under the supervision of Cominco American Incorporated, Buckhorn Operation, P.O. Box 847, Carlin, Nevada, 89822:

Thomas J. Krause., Geologist, Cominco American Incorporated,
Buckhorn Operation, B.S. in Geology, 1983, Colorado State
University

North American Exploration Inc. P.O. Box 348, Kaysville,
Utah

Chemex Labs Ltd., 212 Brooksbank Ave., North Vancouver, B.C.
Canada

Tim Dunlap, driller, Cominco American Inc., Reno Exploration
Office, 831 E. Glendale, Sparks, Nevada

Assessment work for 1986, conducted during the period of August 15th to August 30th consisted of:

- 1.) Collecting 105 surface samples on a grid of 400' x 100'

- 2.) Analyzing samples for several elements
- 3.) Completion of six (6) percussion drill holes
- 4.) Analyzing samples representing five-foot intervals of above mentioned drill holes for gold mineralization
- 5.) Geologic interpretation of samples representing five-foot intervals of above mentioned drill holes

Work was done on claims Willow #'s 5053, 5054, 5153, 5154, 5254, and had a value in excess of \$6300.00. As a result of the geological and geochemical surveys conducted, an area of anomolous gold mineralization was delineated. The work was performed for the purpose of developing a gold-bearing ore zone, and to maintain and hold such claims. All of the aforementioned 63 unpatented lode mining claims are contiguous and work on any one claim or group of claims tends to develop all the claims.

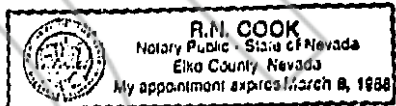

Dated this 1st Day of October, 1986.
