AFFIDAVIT OF ANNUAL ASSESSMENT WORK

State of Nevada )  
                          ) SS:  
County of Washoe )

THE UNDERSIGNED, Andy B. Wallace, does hereby swear and affirm, under the penalties of perjury, that the assertions of this Affidavit are true and correct, and that at least ONE HUNDRED AND 00/100 DOLLARS (\$100.00) per claim was expended for development, labor and improvements, or equivalent value added, as the annual assessment work for the assessment year ending September 1, 1987, for the following unpatented mining claims generally located in Section(s) 20, Township 35 North, Ranges 50 East, M.D.B. & N., Esreka County, Nevada.

<u>NAME OF CLAIM(S)</u>	<u>BLM SERIAL NUMBER</u>
<u>ROD 1-5</u>	<u>NMC # 273073-273083</u>
<u>ROD 79, 80, 81, 83, 84</u>	<u>NMC # 273136-273142</u>
<u>RC 1-14</u>	<u>NMC # 371773-371786</u>

OWNER OR CLAIMANT: Cordex Exploration Company  
573 East Second Street  
Reno, Nevada 89502

The work consisted of: VLF and magnetic geophysical surveys with four east-west lines and one north-south line with 50' data station spacings across claim block. The work described above was performed at the following locations: ROD 1, 3, 5, 79, 80, 81, 83, 84 and RC 1, 2, 3, 4, 5, 6, 7, 10, 11, 12, 13, and 14. Said work was performed between July 13 and August 19, 1987. A total of more than Two thousand four hundred dollars (\$2,400.00) was expended value added. The work was performed by: Cordex Exploration Co. geologists Donald Avery, Valerie Bilbo, and Lindsay Craig.

All of the aforesaid unpatented mining claims are contiguous and work on, or for the benefit of, any one claim or group of claims tends to develop all the claims. The work was performed for the purpose of developing the mineral potential of the claims and to maintain and hold such claims.

DATED this 26th day of August, 1987.

BY: ASWall

Subscribed and sworn to before me this 26th day of August, 1987.

1987 Assessment Work Report

ROD 1-5                   MMC # 273079-273083  
ROD 79, 80, 81, 83, & 84   MMC # 273136-273142  
RC 1-14                   MMC # 371773-371786  
Section 20, T. 35 N., R. 50- E.

On the ROD 1-5, ROD 79-83 and RC 1-14 claim group separate VLF-EM and magnetic surveys were performed between 7/13/87 and 8/19/87 for assessment year 1987. Fifty foot centers were surveyed and flagged as data stations along four separate east-trending lines across the claim block. More than sixteen thousand linear feet of data was collected for each survey.

Both magnetic and VLF-EM variations were encountered in the surveys. Structures and lithologic changes within a Tertiary Rhyolitic dominant terrain account for these variations.

Surveys were supervised by Cordex manager, Andy B. Wallace, Ph.D. Ground work and data manipulation was performed by Don Avery, a Masters of Science Degree candidate, Valerie Eilbo and Lindsay Craig, both with Bachelors Degrees all of whom are geologists employed with Cordex. Wallace, Avery, Eilbo and Craig have sixteen, six, four and eight years experience, respectively, in mineral exploration and development in the western United States.

Instruments used were: Model EM 16 - a VLF-EM unit manufactured by Geonics Limited of Mississauga, Ontario, Canada. The magnetometer used was model G806 manufactured by Geometrics, Inc. of Sunnyvale, California.

Cost of the work exceeded \$2,400.00. All data is available at the Cordex Exploration office, 573 E. Second Street, Reno, Nevada to qualified interested persons.
