REPORT ON  
1987 TRENCHING

Date: September 19, 1987

For: Maggie Crescent 1-30 claims (NMC numbers 353289-353318)  
Sec. 12, T34N, R51E, MDBM  
Eureka County, Nevada

Owner: CASTLE CORPORATION  
1080 Lamoille Road  
Elko, Nevada 89801

1) The work was performed on the Maggie Crescent No. 13 and 15 claims to benefit the entire claim group.

2) The nature and cost of the work was:

Trenching to expose bedrock - \$ 3,000.00

3) Results:

The results of the trenching shows that limonite stained material underlies areas that have been shown to contain anomalous indicator elements as indicated in a soil geochemical survey conducted in 1986. This anomalous zone was found to occur over a 5,600' long zone of jasperoidal-type rocks associated with a major east northeasterly trending structure.

4) The work was performed by Dowell Ward of Fox Mining Company, P.O. Box 644, Crescent Valley, Nevada, 89821 under the direction and supervision of Robert S. Friberg, Consulting Geologist, 265 Cliff View Court, Reno, Nevada 89523. Mr. Friberg holds a B.S. degree in Geology from the Mackay School of Mines, University of Nevada-Reno and has a total of 19 years' experience in mining geology.
