1987  
AFFIDAVIT OF ANNUAL ASSESSMENT WORK  
(PROOF OF LABOR)  
ON UNPATENTED MINING CLAIMS

STATE OF COLORADO        )  
                                  ) ss.  
COUNTY OF JEFFERSON    )

TO WHOM IT MAY CONCERN:

Allan R. Cerny, the undersigned, being duly sworn, deposes and says and hereby certifies that he is personally acquainted with the following-named unpatented mining claims, situate in Section(s) 32, Township 34N, Range 48E, in the unknown Mining District in Eureka County, State of Nevada, copies of the location notices of which are recorded in the Nevada State Office of the United States Bureau of Land Management pursuant to 43 U.S.C. §1744 under the following serial numbers:

<u>Name of Claim</u>	<u>BLM NMC No.</u>	<u>Name of Claim</u>	<u>BLM NMC No.</u>
Roger #2	351520	Roger #29	351533
Roger #4	351521	Roger #30	351534
Roger #6	351522	Roger #31	351535
Roger #8	351523	Roger #32	351536
Roger #10	351524	Roger #33	351537
Roger #12	351525	Roger #34	351538

SUMMARY REPORT  
ROGER CLAIMS (SECTION 32)

(SECTION 32, T35N, R48E MDM)

This report is filed in compliance with the requirements of Title 30, United States Code, Section 28-1 for the Roger Claims #1-4; 6; 8-18; 25-42, a contiguous group of 34 claims in the Unknown Mining District of Lander and Eureka Counties, State of Nevada.

The work consisted of geological mapping and geochemical sampling of the entire claim group. The work was initiated and completed during the month of August, 1987 by James R. Guilinger of 6770 Coors Ct., Arvada, CO 80004, a geologist with 15 years experience in exploration and development geology with a B.A. degree in Geology (1973) from the University of Colorado. The cost of the geological/geochemical work exceeded \$3,400.00 and was paid for by Western States Minerals Corporation.

The geologic work involved detailed mapping of outcrop and structures. All information was plotted on 1"=100' scale base map. Additionally, alteration features were also plotted on this same scale map.

The geochemical work consisted of detailed rock chip sampling of all areas altered outcrop. All samples were submitted to Barringer Labs of Sparks, Nevada for both atomic absorption and fire assay determinations. Pending final evaluation of assay results, areas of anomalous mineral concentration will be selected for drilling.

All technical work and results are in possession of and are considered the exclusive property of Western States Minerals Corporation, with offices at 4975 Van Gordon St., Wheatridge, CO 80033 attention Arden B. Morrow, President.

Respectfully Submitted,

WESTERN STATES MINERALS CORPORATION
