#### LEASE TERMS

Sec. 1. Rentals—Rents shall be paid to proper office of lessor in advance of each lease year. Annual rental rates per acre or fraction thereof are:

- (a) Simultaneous non-competitive lease, \$1.00 for the first 5 years, thereafter, \$3.00;
- (b) Regular non-competitive lease, \$1.00;
- (c) Competitive lease, \$2.00;
- (d) Other, see attachment.

If all or part of a non-competitive leasehold is determined to be within a known geological structure or a favorable area in a geological province, annual rental shall become \$2.00, beginning with the lease year following a year of such determination. However, a lease that would otherwise be subject to rental of more than \$2.00 shall continue to be subject to the higher rental.

If this lease or a portion thereof is committed to an approved cooperative or unit plan, which includes a well capable of producing leased resources, and the plan contains a provision for allocation of production, royalties shall be paid on the production allocated to this lease. However, annual rentals shall continue to be due at the rate specified in (a), (b), (c), or (d) for those lands not within a participating area.

Failure to pay annual rental, if due, on or before the anniversary date of the lease or next official working day (if office is closed) shall automatically terminate this lease by operation of law. Rentals may be waived, reduced, or suspended by the Secretary upon a sufficient showing by lessee.

Sec. 2. Royalties—Royalties shall be paid to proper office of lessor. Royalties shall be computed in accordance with regulations on production removed or sold. Royalty rates are:

- (a) Simultaneous non-competitive lease, 12 1/4%;
- (b) Regular non-competitive lease, 12 1/4%;
- (c) Competitive lease, see attachment;
- (d) Other, see attachment.

Lessor reserves the right to specify whether royalty is to be paid in value or in kind, and the right to establish reasonable minimum values on products after giving lessor notice and an opportunity to be heard. When paid in value, royalties shall be due and payable on the last day of the month following the month in which production occurred. When paid in kind, products shall be delivered, unless otherwise agreed to by lessor, in merchantable condition on the premises where produced without cost to lessor. Lessor shall not be required to hold such production in storage beyond the last day of the month following the month in which production occurred, nor shall lessor be held liable for loss or destruction of royalty oil or other products in storage from causes beyond the reasonable control of lessor.

Minimum royalty shall be due for any lease year after discovery in which royalty payments aggregate less than \$1.40 per acre. Lessee shall pay such difference at end of lease year. This minimum royalty may be waived, suspended or reduced, and the above royalty rates may be reduced, for all or portions of this lease if the Secretary determines that such action is necessary to encourage the greatest ultimate recovery of the leased resources, or is otherwise justified.

An interest charge shall be assessed on late royalty payments or underpayments in accordance with the Federal On-Off-Gas Royalty Management Act of 1982 (FOGRMA) (90 Stat. 2447) with the Federal On-Off-Gas Royalty Management Act of 1982 (FOGRMA) (90 Stat. 2447). Lessor shall be liable for royalty payments on oil and gas lost or wasted from a lease site when such loss or waste is due to negligence on the part of the operator, or due to the failure to comply with any rule, regulation, order, or statute issued under FOGRMA or the leasing authority.

Sec. 3. Bonds—Lessor shall file and maintain any bond required under regulations.

Sec. 4. Diligence, care of development, utilization, and drainage—Lessee shall exercise reasonable diligence in developing and producing, and shall prevent unnecessary damage to, loss of, or waste of leased resources. At such times and in such form as lessor may prescribe, lessor shall furnish detailed statements showing amounts and quality of all products removed and sold, proceeds therefrom, and amounts used for production purposes or unavoidable loss. Lessor may be required to provide plots and schematics, diagrams, drawings, development work and improvements, and reports with respect to parties in interest, expenditures, and debris removal costs in the form prescribed by lessor. Lessee shall keep a daily drilling record, a log, information on well surveys and tests, and a record of subsurface investigations and furnish copies to lessor when required. Lessee shall keep open at all reasonable times for inspection by any authorized officer of lessor, the leased premises and all wells, improvements, machinery, and fixtures thereon, and all books, accounts, maps, and records relative to operations, surveys, or investigations on or in the leased lands. Lessor shall take reasonable measures deemed necessary by lessor to accomplish the intent of this section. To the extent consistent with lease rights granted, such measures may include, but are not limited to, modification to song or design of facilities, timing of operations and specification of interim and final reclamation measures. Lessor reserves the right to continue existing uses and to authorize future uses upon or in the leased lands, including the approval of easements or rights-of-way. Such uses shall be conditioned so as to prevent unnecessary or unreasonable interference with rights of lessor.

Prior to disturbing the surface of the leased lands, lessor shall contact lessor to be apprised of procedures to be followed and modifications or reclamations measures that may be necessary. Areas to be disturbed shall require inventories or special studies to determine the extent of impacts to other resources. Lessor may be required to complete minor inventories or short term special studies under guidelines provided by lessor. If in the conduct of operations, threatened or endangered species, objects of historic or scientific interest, or substantial unanticipated environmental effects are observed, lessor shall immediately contact lessor. Lessor shall cause any operations that would result in the destruction of such species or objects.

Sec. 7. Mining operations—To the extent that impacts from mining operations would be substantially different or greater than those associated with normal drilling operations, lessor reserves the right to deny approval of such operations.

Sec. 8. Extraction of helium—Lessor reserves the option of extracting or having extracted helium from gas production in a manner specified and by means provided by lessor at no expense or loss to lessor or owner of the gas. Lessor shall include in any contract or sale of gas the provisions of this section.

If lessor operates a pipeline, or owns controlling interest in a pipeline or a company operating a pipeline, which may be operated across, to or off derived from these leased lands, lessor shall comply with section 28 of the Mineral Leasing Act of 1920.

Lessor shall comply with Executive Order No. 11246 of September 24, 1965, as amended, and regulations and relevant orders of the Secretary of Labor issued pursuant thereto. Neither lessor nor lessor's successors, shall maintain segregated facilities.
