The undersigned, Robert M. Dahl, certifies that at least One Hundred Dollars (\$100) per claim was expended for development, labor and improvements as the annual assessment work for the assessment year ending September 1, 1988 for the following unpatented mining claims generally located in Section 14, T.33N., R.52E., MDBM, Eureka County, Nevada.

<u>Claim Name</u>	<u>Book at Page</u>	<u>BLM Serial Numbers</u>
TZ 45-77	575: 584-616	NMC 427202-427234

Such expenditure was made by Noranda Exploration, Inc., P. O. Box 7176, Reno, Nevada, owner of the claims.

The work consisted of a Time Domain Electro-magnetic geophysical survey done on six 1500 foot square loops within the boundaries of the claim group.

Said work was performed on August 24, 25, 1988. A total of Three Thousand Three Hundred Eighty One Dollars (\$3381) was expended in performing the work and was done by:

Tony Adkins (Supervisor of Program)
Noranda Exploration, Inc., P. O. Box 7176, Reno, Nevada
B.S., Geology, Georgia State University, 1978
10 years industry experience

and Jim Hild (Field Geophysicist)
Blackhawk Geosciences, Inc.
17301 West Colfax Avenue, #150
Golden, Colorado 80401

The basic findings of the above work is as follows: The interpretations of the geophysical survey, when correlated with the results of previous reverse circulation drilling on the claims, form anomalous patterns of sufficient magnitude and areal extent to justify and encourage further and more extensive development on each and all the claims. The individual interpretations, geologic data and maps are on file in the offices of Noranda Exploration, Inc., Reno, Nevada.

All of the aforesaid unpatented mining claims are contiguous and work for the benefit of any one claim or group of claims tends to develop all the claims. The work was performed for the purpose of developing the mineral potential of the claims and to maintain and hold such claims.

This affidavit prepared in accordance with 30 USC Section 28 and Nevada Revised Statutes 517.230.

Dated this 23rd day of October, 1988.
