

127209

No. 950CP-1 Rev. 1978.

## OIL AND GAS LEASE

6th day of February 1989, by and between

AGRI-MINE, Made and entered into this

Julian Tomera Ranches Inc., Stonehouse Division  
Carlin, Nevada 89822party of the first part, hereinafter called lessor, (whether one or more) and Loma Energy Corp., P.O. Box 21395  
Billings, Montana 59104, party of the second part, hereinafter called lessee.

Dollar  
in hand paid, receipt of which is hereby acknowledged, of the royalties herein provided, and of the agreements of lessee herein contained, hereby grants, leases and lets exclusively unto lessee for the purpose of investigating, exploring, prospecting, drilling and mining for and producing oil, gas, casinghead gas and other hydrocarbons and including all other products produced therefrom; laying pipe lines, building tanks, power stations, telephone lines and other structures thereon to produce, save, take care of, treat, transport, and own said products, and housing its employees, the following described land in Elko and Eureka County, State of Nevada, to wit:

## SEE EXHIBIT "A" ATTACHED HERETO AND MADE A PART HEREOF

Notwithstanding anything to the contrary contained herein, Lessee shall obtain written approval from Lessor for permanent housing for employees, such approval shall not be unreasonably withheld.

including all mineral interests, names, undertakings, leases, roads, easements and rights-of-way which traverse or adjoin said lands owned or claimed by lessor, or which may hereafter be established to be owned by lessor, and also in addition to the above described land and rights, any and all strips or parcels of land, other than those constituting regular governmental subdivisions, adjoining in contiguous to the above described land and owned or claimed by lessor, all of the foregoing land being hereinafter referred to as said land or leased premises, but the purpose of calculating the rental payments for which provision hereinafter is made, said land shall be treated as comprising 4,828.41 acres whether it actually comprises more or less.

TO LESSOR AND TO BORROWER the same (subject to the other provisions herein contained) for a term of 20 years from this date (called primary term) and as long thereafter as oil, gas, casinghead gas or other hydrocarbons or either or any of them, is produced therefrom, or as much longer thereafter as the lessee in good faith shall conduct drilling operations or reworking operations thereon and should production result from such operations, this lease shall remain in full force and effect as long as oil, gas, casinghead gas or other hydrocarbons shall be produced therefrom.

In consideration of the premises it is hereby mutually agreed as follows:

1. The lessor shall deliver to the credit of the lessor as royalty, free of cost, in the pipe line to which lessor may connect its wells the equal one-eighth (1/8) part of all oil produced and saved from the leased premises, or lessor may from time to time at its option purchase any royalty oil in its possession, paying the market price thereof prevailing for oil of like grade and gravity in the field where produced on the date of purchase.

2. The lessor shall pay lessor, as royalty, no gas, including casinghead gas or other gaseous substances produced from the leased premises and sold or used off the premises or used in the manufacture of gasoline or other products, the market value at the well of one-eighth of the gas sold or used, provided that on gas sold or used in the manufacture of gasoline or other products, the amount realized from the sale of gas shall be the price established by the gas sales contract entered into in good faith by lessor and a gas producer for such item and under such conditions as are customary in the industry. "Price" shall mean the net amount received by lessor after giving effect to applicable regulatory orders and after application of any applicable price adjustments specified in such contract or regulatory orders. In the event large compressors, treating, purifies, or dehydrates such oil, whether an oil and gas lease or otherwise, or off the leased premises, lessor in computing royalties hereunder may deduct from such price a reasonable charge for each such function performed. If a well capable of producing gas or gas and gas-condensate or distillate in paying quantities located on the leased premises or on acreage pooled with all or a portion of the leased premises into a unit for the drilling or operation of such well is at any time shut-in and no gas or gas-condensate or distillate therefore is sold or used off the premises for the manufacture of gasoline or other products, nevertheless such shut-in well shall be deemed to be a well on the leased premises producing gas in paying quantities and this lease shall continue in force during all of the time or times while such well is so shut-in, whether before or after the expiration of the primary term hereof. Lessee shall use reasonable diligence to market gas or gas-condensate or distillate capable of being produced from such shut-in well but shall be under no obligation to market such products under terms, conditions or circumstances which, in lessor's judgment exercised in good faith, are unsatisfactory. Lessor shall be obligated to pay or tender to lessor within 45 days after the expiration of each period of one year in length annual period in which such well is so shut-in, as royalty, an amount equal to annual delay rental herein proscribed applicable to the interest of lessor in acreage embraced in this lease as of the end of such annual period; provided that if gas or gas-condensate or distillate from such well is sold or used as aforesaid before the end of such annual period, or if, at the end of such annual period, this lease is being maintained in force and effect otherwise than by reason of such shut-in well, lessor shall not be obligated to pay or tender, for that particular annual period, said sum of money. Such payment shall be deemed a royalty under all provisions of this lease. Such payment may be made or tendered to lessor or to lessor's credit in the designated depository bank in the manner prescribed for the payment of delay rentals. Royalty ownership as of the last day of each such annual period as shown by lessor's records shall govern the determination of the party or parties entitled to receive such payment.

3. If operations for the drilling of a well for oil or gas are not commenced on said land on or before one year from this date, this lease shall terminate as to both parties, unless the lessor shall, on or before one year from this date, pay or tender to the lessor, for the lessor's credit in PAY DIRECT TO LESSOR Carlin, Nevada 89822

bank and its successors are lessor's agents and which shall continue as the lessor's agent regardless of changes in the ownership of the land or in the oil or gas or the rentals to accrue hereunder, the sum of Four Thousand Eight Hundred Twenty-Eight and 41/100 Dollars which shall operate as a rental and cover the privilege of deferring the commencement of operations for the drilling of a well for a period of one year, in like manner and upon payment or tender, the commencement of operations for the drilling of a well may be further deferred for like periods successively during the primary term of this lease. And it is understood and agreed that the consideration first recited herein, the down payment, covers not only the privileges granted to the date when said rental is payable as aforesaid, but also the lessor's option of extending that period as aforesaid, and any and all other rights conferred. All payments or tenders may be made by check, or draft, of lessor or any assignee thereof, mailed or delivered on or before the rental paying date. Lessee may at any time execute and deliver to lessor or place of record a release or releases covering any portion or portions of the above described premises and thereby surrender this lease as to such portion or portions and be relieved of all obligations as to the acreage surrendered and thereafter the rentals payable hereunder shall be reduced in the proportion that the acreage covered herein is reduced by said release or releases.

4. If prior to discovery of oil or gas and premises lessor should drill a dry hole or holes thereon, or if after discovery of oil or gas wells thereon should become incapable of producing for any cause, this lease shall not terminate if lessor commences operations for additional drilling or for reworking within sixty (60) days thereafter or if it be within the primary term commences or resumes the payment or tender of rentals on or before the rental paying date next ensuing after the expiration of sixty (60) days from date of completion of dry hole or cessation of production. If at the expiration of the primary term there is no well upon the leased premises capable of producing oil, gas, casinghead gas or other hydrocarbons, but lessor has commenced operations for drilling or reworking thereon, the lease shall remain in force so long as operations are prosecuted with no cessation of more than sixty (60) days, or when such operations are on the same well or on a different or additional well or wells, and if they result in the production of oil, gas, casinghead gas or other hydrocarbons, so long thereafter as oil, gas, casinghead gas or other hydrocarbons or either or any of them is produced from the leased premises.

5. If lessor retains a less interest in the above described land than the entire and undivided fee simple estate therein, then the royalties and rentals herein provided for shall be paid the lessor's interest in the proportion which his interest bears to the whole and undivided fee.

6. Lessee shall have the free use of oil, gas, casinghead gas and water throughout the area covered by this lease on said land, except water from lessor's wells, for all operations hereunder and the royalty on oil, gas and casinghead gas shall be computed after deducting any so used.

When required by law, lessor shall pay his bills in his pipe lines below plow depth.

No well shall be drilled nearer than 200 feet to the house or barn now on said premises without the written consent of the lessor.

Lessee shall pay for damages caused by his operations throughout the area covered by this lease.

Lessee shall have the right at any time during the life of the obligation to remove all improvements, machinery, and fixtures placed or erected by lessee on said premises, including the right to pull and remove casings.

7. The rights of either party hereunder may be assigned in whole or in part, and the provisions hereof shall extend to the heirs, executors, administrators, successors and assigns of the parties hereto. Notwithstanding any actual or constructive knowledge of or notice to lessor, no change or division in the ownership of the lands, royalties, or rentals, however accomplished, shall be binding upon the lessor to the extent of any part thereof that is located, or a photocopy of the recorded instrument or instruments evidencing the same or transfer, as finding an intermediate transfer from the lessor or his assignee, notwithstanding the same or transfer, the evidence of change in ownership shall control over any prior or subsequent transfer of the lands above described. Lessee may until such date continue to pay such royalties and rentals as it so changes or transfers if such had not been made or it may pay the same according to the interests of record as disclosed by the last certification of an abstract in lessor's possession subsequent to the date of the lease or at lessor's option, may suspend the payment thereof until sixty (60) days after such evidence is received. No change or division in the ownership of the land, royalties, or rentals shall operate to enlarge the obligations or diminish the rights of the lessor. No division of royalties shall be made after the end of a calendar month. If the lands above described are changed into separate divided portions of said land and the owner of any such totally deserts separate grants for production from such separate tract, the lessor shall require the lessor to set separate measuring and recording lands and pay to the lessor in advance the lessor's estimated cost of producing and setting such lands and making the connections thereto, and unless and until such is done, lessor may pay such royalties to the separate owners jointly or may suspend payment until such time as said separate owners shall agree in writing upon an apportionment of such royalties and furnish lessor with the original agreement. An event of assignment of this lease as to a separated portion or portions of said land, all rentals payable hereunder shall be apportioned as between the several household owners ratably according to the surface acre of each, and default in rental payment by one shall not affect the rights of other household owners hereunder. As a lease included in any assignment as recited therein or good faith shall be conclusive for the purpose of payment of rentals. Whether or not this lease be owned by one party or by two or more different parties, production under the terms of this lease, or drilling or reworking operations on any portion of the land above described, shall keep this lease in effect upon all the land herein leased. The lessor shall not be liable for the failure of any subsequent owner of this lease, in whole or in part, to perform the terms, conditions and obligations of this lease, express or implied. Offsetting shall never be resorted to protect one portion of the leased premises against drainage through a well or wells on another portion of the leased premises. If six or more parties become entitled to royalty hereunder, lessor may withhold payment thereof unless and until furnished with a recordable instrument executed by all such parties designating a trustee to receive payment for all.

8. Lessee shall have the right to unitize, pool, or combine all or any part of the above described lands with other lands in the same general area by entering into a cooperative or unit plan of development or operation approved by any governmental authority and, from time to time, with like approval to modify, change or terminate any such plan or agreement and, in such event, the terms, conditions and provisions of this lease shall be deemed modified to conform to the terms, conditions, and provisions of such approved cooperative or unit plan of development or operation and, particularly, all drilling and development requirements of this lease, express or implied, shall be satisfied by compliance with the drilling and development requirements of such plan or agreement, and this lease shall not terminate or expire during the life of such plan or agreement. In the event that said above described lands or any part thereof, shall hereafter be operated under any such cooperative or unit plan of development or operation whereby the production therefrom is allocated to different portions of the land covered by said plan, then the production allocated to any particular tract of land shall, for the purpose of computing the oil dues to be paid hereunder to lessor, be regarded as having been produced from the particular tract of land to which it is allocated and not to any other tract of land, and the royalty payments to be made hereunder to lessor shall be based upon production only as so allocated. Lessor shall promptly express lessor's consent to any cooperative or unit plan of development or operation adopted by lessee and approved by any governmental agency by executing the same upon request of lessor.

9. In addition to and not in limitation of the rights granted in paragraph 8 hereof, lessor is hereby granted the right and option to consolidate, pool or combine the lands covered by this lease, or any portion or portions thereof, or any, station or state thereunder, with other lands, like states or greater for the development thereof or for the production therefrom of oil, gas, condensate, gas or other hydrocarbons, or any or all of said products, when in lessor's discretion it is advisable so to do for proper development or operation of the premises, or to conform to spacing or zoning rules of any local authority, such consolidation, pooling or combining to be into units of such shape and dimensions as lessor may elect provided that any such unit when completed shall be composed of tracts each of which is contiguous to, touches or comes with some one or more of the other tracts in the unit in such manner as to form one connected tract or unit, and provided, further, that any tracts included in any such unit separated only by a street, alley, road, railroad, canal, stream, right-of-way or other similar strip or parcel of land shall be considered as contiguous, touching or touching within the meaning of this paragraph. Any unit formed under this paragraph for production of oil and casinghead gas shall not exceed one hundred sixty three (163) acres in surface area, and for production of dry gas well gas or dry or gas well gas and condensate or distillate shall not exceed six hundred sixty (660) acres in surface area. If some larger unit for the production of oil and casinghead gas or dry gas well gas or dry or gas well gas and condensate or distillate is permitted or prescribed by lawful authority, then in such event such larger unit shall control, provided that, if governmental survey units be irregular in size in the area of this lease, the size of any of the units mentioned herein may be increased to the size of the there existing governmental survey unit nearest in size to the unit acreage prescribed herein. The right and option herein granted to lease may be exercised at any time or from time to time, whether before or after production is secured and whether or not a unit may therefore have been created for some other product, by executing in writing an instrument identifying and describing the unit created, and by delivering a copy thereof to lessor or by recording a copy thereof in the country where the land located. The lands in any such unit shall be developed or operated as one tract and any operations for the drilling of a well or for production from such unit, whether or not from lands described in this lease, shall be deemed to be drilling operations on or production secured on lands subject to this lease for all purposes except for the purpose of payment of royalty thereunder; provided, further, that any operations for drilling and completing a well on any such unit shall be deemed to be operations on the lands described in the lease and under the terms thereof regardless of whether such operations result in a well of the type covered in the instrument declaring such unit or a well of a type not covered by such instrument. In lieu of the royalties elsewhere herein specified, the lessor shall receive from production on any such unit only such portion of the royalty, at the rate stipulated elsewhere herein, as lessor's acreage in the unit for his royalty interest therein bears to the total acreage of the unit. Formation of any unit as herein provided shall in no manner affect the ownership or amount of any rental which may be payable under the terms of this lease.

10. In the interest of conservation, the protection of reservoir pressures and recovery of the greatest ultimate yield of oil and/or gas, lessor shall have the right to combine the leased premises with other premises in the same general area for the purpose of operating and maintaining repressuring and recycling facilities, and for such purpose may locate such facilities, including input wells, upon the leased premises, and no rentals shall be payable hereunder upon any gas used for repressuring and recycling operations benefiting the leased premises.

11. Lessor hereby waives all rights to recover attorney's fees and costs of suit or action for the recovery of any unpaid rentals or for any taxes, mortgages, or other liens existing, levied, or assessed on or against the above described lands and, in event it exercises such option, it shall be subrogated to any title of any holder or holders thereof and may reimburse itself by applying to the discharge of any such mortgage, tax, or other lien, any royalty or rentals accruing hereunder.

12. In the event lessor considers that lessee has not complied with all its obligations hereunder, both express and implied, lessor shall notify lessee in writing, setting out specifically in what respects lessor has breached this contract. Lessor shall then have sixty (60) days after receipt of said notice within which to meet or continue to meet all or any of the breaches alleged by lessor. If the service of said notice shall be insufficient to the bringing of any action by lessor on said lease for any cause, and such action shall be brought within the lapse of sixty (60) days after service of such notice on lessor, neither the service of said notice nor the doing of any acts by lessor aimed to meet all or any of the alleged breaches, shall be deemed an admission or presumption that lessor has failed to perform all its obligations hereunder.

13. All express and implied covenants of this lease shall be subject to all federal and state laws, executive orders, rules and regulations, and this lease shall not be terminated, in whole or in part, nor lessor held liable in damage for failure to comply therewith if compliance is prevented by, or if such failure is the result of, any such law, order, rule or regulation, or if such compliance is prevented by or failure is the result of inability of lessor through no fault of its own, to obtain sufficient and satisfactory material and equipment to justify the commencement of drilling operations or to continue production of oil or gas from the leased premises.

14. This lease and all its terms, conditions, and stipulations shall extend to and be binding on all successors of said lessor or lessee.

15. With respect to and for the purpose of this lease, lessor, and each of them if there be more than one, hereby release and waive the right of homestead.

16. This lease shall be binding upon each party who executes it without regard to whether it is executed by all those named herein as lessors.
