ATTACHED TO THAT CERTAIN
1989 PROOF OF LABOR
COVERING THE HSP 37-70 CLAIMS

This report is filed in compliance with the requirements of Title 30 U.S. Code, Section 28-1, for the HSP 37-70 mining claims situated in Eureka County, Nevada.

The work consisted of CSAMT geophysical surveys of parts of the claim blocks (see attached location map). The work was conducted to identify and evaluate the extent of mineralized areas within the claim block, and to assist in planning further exploration and development work. The work was performed between the dates of July 1, 1989 and August 15, 1989 by Phoenix Geoscience, 555 17th St. Suite 2570, Denver, Colorado 80202, under the supervision of Ronald L. Parratt, Exploration Manager, with seventeen years experience in minerals exploration with a Bachelor of Science and Masters of Science from Purdue University. The cost of the surveys exceeded \$100 per claim and was paid for by Santa Fe Pacific Mining, Inc. The geophysical surveys delineated structural zones within the claim block which will be used to assist in further exploration and development work. All technical data and results are in the possession of and considered to be the exclusive property of Santa Fe Pacific Mining, Inc.
