COUNTY OF

The undersigned, in whose behalf the following described work was performed or improvements made, certifies that at least \$2,700.00 dollars were expended, and/or the following labor expended or improvements made having a value thereof, consisting of:

surface geochemistry; rock chip and stream sediment sampling (for "Summary Report" as required by the Act of September 2, 1958, Title 30 U.S.C. Section 28-1, see ATTACHMENT "B" attached hereto and made a part hereof)

were performed and made upon

the ROGER contiguous claims, see ATTACHMENT "A" attached hereto and made a part hereof, such work was done and performed for the benefit of each and all of the unpatented

see ATTACHMENT "A"

lode mining claims in Section _____ Township _____ Range _____, situated in the UNDESIGNATED Mining District, County of Eureka, State of Nevada, during the year ending 12:00 Noon, September 1, 1989.

The claim map showing said claim(s) is filed as Document No. 100627 in the Eureka County Records.

The work described above was performed in November 1988, April 1989, and June 1989, by ECHO BAY EXPLORATION INC., see ATTACHMENT "B".

Such expenditure was made by or at the expense of ECHO BAY EXPLORATION INC., 5250 Nell Road, Suite 300, Reno, Nevada 89502, on behalf of RANCHO VENTURE, a venture between WESTERN STATES MINERALS CORPORATION and ECHO BAY EXPLORATION INC., owner of said claims for the purpose of hold said claims.

ANNUAL ASSESSMENT WORK

(PROOF OF LABOR)

FOR THE YEAR ENDING 12:00 NOON, SEPTEMBER 1, 1989

SUMMARY REPORT

This detailed report is filed in compliance with the requirements of Title 30, United States Code, Section 28-1 for the ROGER contiguous lode claims.

A surface geochemistry program was conducted within or immediately adjacent to the ROGER claims, consisting of rock chip and stream sediment sampling during November 1988, April and June, 1989.

Sample data were plotted on an overlay map, (see Figure 1 attached hereto and made a part hereof) to evaluate the discovery of valuable mineral deposits located thereon and to assist in planning further exploration and development work.

The results of these surveys included the evaluation of the potential of the claims for an economic Au/Ag deposit and the generation and extension of drill targetable areas.

These activities were conducted by the following:

■ Jeff Wright, Geologist for Echo Bay Exploration Inc.
B.S. degree (1983) in Geology
University of Colorado, Boulder, Colorado
Seven year's experience

■ Robert Jung, Temporary Geologist, Echo Bay Exploration Inc.
Fort Lewis College, Durango, Colorado
B.S. degree (1985) in Geology
Two year's experience

■ Chris Love, Temporary Geologist, Echo Bay Exploration Inc.
Fort Lewis College, Durango, Colorado
B.S. degree (1986) in Geology
One year experience

■ Cassavay Brown, Geologist for Echo Bay Exploration Inc.
M.S. degree (1980) in Geology
University of New Mexico, Albuquerque, New Mexico
Seven year's experience

All of the contiguous claims are held and claimed by the owner of record for the valuable minerals contained therein; and further, a diligent effort is being made to delineate, extend and develop additional ore reserves within the boundaries of the subject mining claims.

Respectfully submitted,
ECHO BAY EXPLORATION INC.
