

130563
AMENDED
1989 AFFIDAVIT OF PERFORMANCE OF
ANNUAL ASSESSMENT WORK
N MC 498591-498838, 505253-505358

STATE OF NEVADA)
) ss.)
COUNTY OF WASHOE)

The undersigned, ROBERT N. WHITTEMORE, does hereby swear and affirm, under the penalties of perjury, that the assertions of this Affidavit are true and correct, and further as follows:

1. Performance of annual assessment work in excess of \$100.00 per claim was expended for development, labor and improvements, or equivalent value added, as the annual assessment work for the contiguous group of unpatented mining claims listed on Exhibit A, attached hereto and made a part hereof and recorded in the office of the County Recorder, Eureka County, Nevada, for the annual assessment year ending September 1, 1989, as required by and in compliance with the laws of the United States and the State of Nevada.

2. From September 1, 1988 through October 31, 1988, April 18, 1989 through July 22, 1989, the following expenditures, labor, and improvements have been performed for the benefit of the subject claims by FMC Minerals Corporation:

WORK PERFORMED

COST

Surface soil and rock sampling \$32,758.00

Building drill roads and pads 3,792.00

Total expenditure \$36,550.00

The above expenditures, labor and improvements affected the following claims or parts thereof:

Surface Sampling: Sol 1-354

Building drill roads and pads:

Sol 30, 31, 64, 99, 129, 130, 133, 134, 209, 240-243

Nature and Basic Findings of Geochemical/Geophysical Surveys
As Required by 30 U.S.C. 528-1-2

A surface soil sampling program was completed with soil samples being collected on 600' centers. The samples were run for a minimum of six elements, including gold, silver, arsenic, antimony, and mercury. In areas where anomalous values were obtained, detailed soil lines were run to better define the anomalous areas. During the mapping program completed over the claim block, rock samples were collected from many of the outcrops present on the property. Again, these samples were assayed for multiple elements. When the results of the two geochemical surveys were combined with the mapping, targets were selected for drilling. In order to trace favorable structures into ground covered by alluvium, a surface geophysical program was completed. Lines were run 200' apart with readings being collected every 100'. Nearly 3,000 readings were taken during this geophysical program. Again, when the

BOOK 205 PAGE 286

geophysical data was combined with the surface geology and geochemical work, target areas were identified for drilling.

The names and addresses of the persons, corporations, or contractors who performed the above work are as follows:

Sampling/Assaying:

Chemex Labs
994 Glendale, #7
Sparks, NV 89431

Apex Surveying, Inc.
P.O. Box 1751
Riverton, WY 82501

Building drill roads
and pads:

Stan Haestretti
Austin garage
P.O. Box 6
Austin, NV

3. The above expenditures, labor, and improvements were made for the assessment year commencing September 1, 1988, and ending September 1, 1989. The dates on which such expenditures, labor, and improvements were made are continuous from September 1, 1988 through October 31, 1988, and April 18, 1989 through July 22, 1989.

4. The above labor and improvements were made at the expense of FMC Minerals Corporation, 5011 Meadowood Way, Suite 300, Reno, Nevada, 89502, owner of the claims listed on Exhibit A.

The work was performed by FMC Minerals Corporation and its contractors on the above referenced claims for the benefit of the Exhibit A claims. The Exhibit A claims are all contiguous.

The above work was performed in good faith for the purpose of developing the mineral potential of the contiguous group of mining claims, directly facilitate the extraction of minerals therefrom, and to maintain and hold such claims.

DATED and signed this 17th day of September, 1989.

FMC MINERALS CORPORATION

By Robert N. Whittemore

Robert N. Whittemore
Basin District Geologist

The foregoing instrument was subscribed and sworn to and acknowledged before me by Robert N. Whittemore, this 17th day of September, 1989.
