Thomas J. Head, geologist employed by USSRAM Exploration Company, who has more than five years experience at doing such work. The samples were assayed by Skyline Labs, Inc., and the results were plotted on maps to show the distribution of each of the elements.

The above named and described unpatented lode mining claims comprise a contiguous group of lode mining claims owned in common by USSRAM Exploration Company. The said labor was performed and improvements made for the benefit of each and all of said mining claims comprising said contiguous group, as a part of a general plan of development and they tend to improve and develop each and all of said mining claims. The amount expended for the value of said labor and improvements is not less than One Hundred Dollars (\$100.00.) for each of the mining claims comprising said contiguous group. The said expenditure was made in good faith for the purpose of developing said contiguous group of mining claims and was intended as annual labor and improvements for each and all of the above and described unpatented lode mining claims.
