Assessment work, 1989-1990, John Long, B.S. Geology, California State College, M.S. Geology, University of California-Riverside, spent 53 days mapping and sampling the old Yellier 1-169 Claims, Eureka County, Nevada. He collected 100 samples. These samples were analyzed for gold, silver, arsenic, antimony, and mercury. Results indicate further work should be done to fully explore the claims.
