Before me, the subscriber, personally appeared Patrick C. Cavanaugh who being first duly sworn says, that at least \$39,500 worth of work or improvements were performed upon or for the benefit of those contiguous lode mining claims described in Exhibit A attached hereto, being situated in Eureka County, Nevada.

The labor or improvements consisted of drilling 6 reverse circulation drill holes and the analysis of the produced material from the claims. Drilling was done on the Buckaroo #66 and the GBN #s 124, 131, 154 and 158 for the benefit of the entire group of claims. Said labor was performed by Newmont Exploration Limited and such expenditure was done for or at the expense of ECM, Inc., P.O. Box 3493, Billings, Montana 59103, owner of said claims. ECM acquired the Buckaroo 1-76 claims from Newmont Exploration by that quitclaim instrument dated June 1, 1990 and recorded in Book 210, Page 572-573 of the records of Eureka County, Nevada. Drilling was performed between March 20, 1990 and April 6, 1990 and analysis of the material was completed by May 29, 1990. The work was performed for the purpose of developing the mineral potential of the claims and to maintain and hold said claims.
