

AFFIDAVIT OF ANNUAL ASSESSMENT WORK

TO WHOM IT MAY CONCERN:

The undersigned, Cominco American Resources, Incorporated, Buckhorn Operations, by and through its agent or agents, certifies that it expended more than One Hundred Dollars, (\$100.00), per claim for development, labor, and improvements, or equivalent value added, as the annual assessment work for the assessment year ending September 1, 1990, for each and everyone of the following 3 unpatented lode mining claims generally located in Sections 13 and 14 of Township 27 North, Range 49 East, M.D.B. & M..

CLAIMS BLM REGISTRATION #

Lucky Buck 459-461 NMC 504163-504165

All the aforementioned claims are owned by:

Buckhorn Mines Company
Attn: Dale Soule
875 Cherry Terrace
Susanville, CA 96130

The labor, development and improvements were performed by the following individuals and companies under the direction of Cominco American Resources, Incorporated -- Buckhorn Operations:
1.) Joseph T. Plahuta --Cominco American Resources Inc.,
Buckhorn Operations., BS degree in Geology from University of Montana, Missoula, MT., 1976.

2.) Geochemical Services Inc. -- Torrence, CA., commercial geochemists and assayers.

The work for the development of the claims was performed between September 1, 1989 and August 31, 1990, and consisted of collection of rock chip samples and having full geochemical analyses performed on each sample.
Such work cost, and is valued at, in excess of \$300 and was conducted on each of the aforementioned claims.
As a result of the geochemical surveys conducted, it has been determined that gold, silver, and arsenic values outline areas of gold mineralization coincident with fault/fracture intersections.

All of the aforementioned 3 unpatented lode mining claims are contiguous and work on any one claim or group of claims tends to develop all the claims. The work was performed for the purpose of developing the mineral potential of the claims, and to maintain and hold such claims.

Dated this 25th day of October 1990.
