PROOF OF PERFORMANCE AND COMPLETION OF
ANNUAL ASSESSMENT WORK

STATE OF NEVADA }
County of EUREKA } ss.

The undersigned, in whose behalf the following described work was performed or im-
provements made, certifies that at least \$3,300.00 Dollars were expended, and/or
the following labor expended or improvements made having a value thereof, consisting of:
Sampling, assaying, mapping, evaluating property to select a drill site
(Describe Character and Location of Expenditures or Labor or Improvements)

N-MC #155997 thru 156010	Silverado #134 thru 147
N-MC #156011 thru 156023	Silverado #150 thru 162
N-MC #91890 thru 91895	Silverado #178 thru 183

(33 lode claims)

_____ situated in the _____ Eureka
Mining District of the County of _____ Eureka
State of Nevada, during the year ending 12:00 Noon, September 1, 19 90.

The work described above was performed on _____ July, August 1990
(Insert Dates that Work Performed)
by _____ Merlin Mining Company, E.P. Gush, F.D. Horcroft, Eldon Nahring,
(Insert Names of Persons, Corporation or Contractor who Performed the Work or made the Improvements.)
Jack Kuhn & Associates.

Such expenditure was made by or at the expense of _____ Merlin Mining Company
Behalf of Diamond-Silverado Group
owner(s) of said claim(s) for the purpose of holding said claim(s).

Subscribed and sworn to before me this _____ day of October, 1990.

DETAILED GEOCHEMICAL REPORT

Declaration

I, Eldon L. Nahrning, being first duly sworn depose and say that this detailed geochemical report consisting of two pages was correctly prepared from field notes and assays taken during a geochemical survey made by me on October 20 - December 2, 1989, that it truly and correctly represents the results of said survey.

Qualifications

This geochemical survey was performed by Eldon Nahrning who is presently an Exploration Manager holding a B.A. degree in Geology from the University of Minnesota granted in 1969 and a M. Sc. degree in Geology from University of Idaho granted in 1971 and since that time has spent 19 years in mining and exploration holding positions from Exploration Geologist, to Chief Geologist and Consulting Geologist. Geological services were provided to major mining companies throughout the United States and overseas.

Location of Work

Lode mining claims affected by this report are located in portion of T.18N., R.52E. (protracted and unsurveyed) Eureka County, Nevada. This work was completed within boundaries of above stated claims as shown on attached map.

Procedure

A geochemical rock and soil sampling survey was complete at geologically significant locations and on a grid laid out over the Mahogany Hills claim block. This survey consisted of the collection, assaying, statistical analysis, interpretation and plotting soil samples and the assay results. A total of 261 samples were collected. Grid samples were taken at stations spaced at 100 feet along N-S survey lines spaced 100 feet apart. Elements included in this study are Au, Ag, Cu, Pb, Zn, Sb, Hg, As, and Tl. This survey was done to directly measure changes in geochemistry of rock units and mineralized horizons.

Basic findings from interpretation of data show anomalous conditions and potential mineralization along strike from areas of known mineralization.

In excess of \$3,300 worth of work was completed. Data and results of sampling are in files of lessee/owners.

A total of 12 claims were included in this exploration phase and are identified as follows:

Silverado

#134 - 145

This detailed report is filed in compliance with the requirements of Title 30, U.S.C., Section 28-1-2 on and for the benefit of all claims listed on attached Affidavit.

I certify (or declare) under penalty of perjury that the foregoing statements are true and correct.

Dated this 30th day of October 1990 and executed in Eureka County, Nevada.

Eldon L. Nahrting, Exploration Manager
