**SUPPLEMENTAL SUMMARY REPORT**

This detailed report is filed as a supplement to the 1990 Affidavit of Labor filed in Book 214, Page 237-241 of the Eureka County records and is in compliance with the requirements of Title 30, United States Code, Sections 28-1 for the Red Nos. 955-1024. 1105-1144 & 1655-1666 a contiguous group of 122 unpatented Lode Mining Claims, situated in Eureka County, Nevada.

The work consisted of geophysical analysis of the entire claim group to evaluate the discovery of valuable mineral deposits located thereon and to assist in planing further exploration and development work. All geophysical analysis was performed under the direction supervision of Rosalie C. Moore of P.O. Box 250 Battle Mountain, Nevada 89820. Rosalie the chief exploration geologists for Touchstone Resources Co. has a B.S. and a M.S. degree in the geologic sciences, with 9 years experience as a professional economic geologist.

The basic findings of the study indicate that some geologic factors similar to other known mineralized properties in the region occur within the claim group boundary. The information obtained from the geophysical analysis was helpful toward understanding the geology of the area within the subject claims and will be used for consideration of future drilling and development targets.

All technical work and results are in the possession of and are considered to be the exclusive property of Touchstone Resources Company, with offices at 101-9 Carson Road, Battle Mountain, Nevada. The mailing address for Touchstone Resources Company is P.O. Box 250, Battle Mountain, Nevada 89820. Phone (702) 635-9040.

Respectfully Submitted
