

The United States of America

To all to whom these presents shall come, Greeting:

N-48685

135740

WHEREAS

Newmont Gold Company

is entitled to a land patent pursuant to the general mining laws, R.S. 2325, as amended (30 U.S.C. 29), for the land embraced within the POINT TOO lode mining claim designated and described as:

Survey No. 5020, excepting the patented KL-5, KL-6, KL-9 lodes, M.S. 4998, and Railroad Grants 249 and 997571, embracing a portion of section 3, T. 33 N., R. 51 E., and sections 34 and 35, T. 34 N., R. 51 E., Mount Diablo Meridian, situated in an Unknown Mining District, Eureka County, Nevada, the said claims being more particularly described in the official field notes and depicted on the official plat, which are expressly made a part of this patent and copies of which are attached hereto; aggregating .337 acres.

NOW KNOW YE, that there is, therefore, granted by the United States unto Newmont Gold Company the lands above described; TO HAVE AND TO HOLD the said lands with all the rights, privileges, immunities, and appurtenances, of whatsoever nature, thereunto belonging, unto Newmont Gold Company, its successors and assigns, forever; and

EXCEPTING AND RESERVING TO THE UNITED STATES, a right-of-way thereon for ditches or canals constructed by the authority of the United States. Act of August 30, 1890 (43 U.S.C. 945).

IN TESTIMONY WHEREOF, the undersigned authorized officer of the Bureau of Land Management, in accordance with the provisions of the Act of June 17, 1948 (62 Stat. 476), has, in the name of the United States, caused these letters to be made Patent, and the Seal of the Bureau to be hereunto affixed.

[SEAL]

GIVEN under my hand, in Reno, Nevada
the TWELFTH day of DECEMBER
in the year of our Lord one thousand nine hundred and NINETY
and of the Independence of the
United States the two hundred and FOURTEENTH

ER

-347091

This survey was made with a Hewlett-Packard Electronic Total Station, Model No. 3820A, Serial No. 1650A00201, which utilizes electronic horizontal and vertical circles that display measured horizontal and zenith angles directly in degrees, minutes and seconds. All lines of this survey were measured with this instrument which uses a laser beam to measure the slope dist. from the instrument toward a reflector located at the point to be measured. The slope dist. is reduced to hor. dist within the instrument by an electronic computing device and displays the hor. dist. directly to the nearest one thousandth of a ft. The instrument was tested and calibrated on a base line of known length before and after this survey was completed and found to be in good adjustment during the time that this survey was executed.

Bearings referred to in this record were determined by the average of two hor. angle measurements, one with the telescope in the dir. position, and one with the telescope in the rev. position. These angles were referred to the meridian by the following observations:

September 18, 1987 at the W 1/4 sec. cor. Sec. 35, T. 34 N., R. 51 E., M.D.M. at latitude $40^{\circ}47'27''$ N., and longitude $116^{\circ}13'06''$ W., elevation approximately 5640 feet above sea level, barometric pressure of 23.45 ins. of mercury, and temperature 55° F., make a series of eight observations on the sun for azimuth at approximately equal time intervals, four each with the telescope in the dir. position and rev. position, observing the horizontal angle right from NGC Control Pt. No. TT-249, and the zenith angle to the center of the sun using a Roelofs Solar Prism.

Mean time of observation
(120th meridian (P.S.T.) = 7h48m46.6s AM
Declination of the sun at
mean time of observation = N. $1^{\circ}54'35.5''$
Mean observed zenith angle
to the sun's center = $64^{\circ}40'49.5''$
Mean horizontal angle right
from NGC Control Pt. No.
TT-249 to the sun's
center = $364^{\circ}15'33.4''$
True bearing to NGC Control
Pt. No. TT-249 = $S.53^{\circ}12'48''E.$

LOCATION	
This survey is located in the SE 1/4 of Sec. 34 and SW 1/4 of Sec. 35, T. 34 N., R. 51 E., and NE 1/4 of Sec. 3, T. 33 N., R. 51 E., Mt. Diablo Meridian.	
The survey of the lode in this survey differs with the respective location to the extent previously noted.	
EXPENDITURES	
The improvements and the value of the labor and improvements made upon or for the benefit of the lode location, embraced in said mining claim by the claimant or its grantors, are as follows:	
No. 1	The discovery monument of the POINT TOO lode, a post and Notice of Location, bears SOUTH, 45.00 ft. dist. from the center of line 2-3. No value.
No. 2	The POINT TOO lode is located within an active area of an open pit mine. Estimated material removed, 50,000 cubic yards. Value, \$50,000.00.
No portion of or interest in these improvements has been credited heretofore as patent expenditure to any lode claim.

CERTIFICATE OF LOCATION
AND MINING CLAIM

TO ALL WHOM IT MAY CONCERN:

The undersigned hereby certifies that he has caused to be located the Point 700 lode mining claim in the following quarter sections: 12 1/4 sec. 30 and 30 1/2 sec. 32, Township 30 North, Range 51 East; 12 1/4 sec. 3 and 30 1/2 sec. 2, Township 31 North, Range 51 East, W.B.S. & M., in the Maggie Creek Mining District, in Eureka County, in the State of Nevada, on the 19th day of July, 1987.

The names and post office addresses of the locator is:

CARLIN GOLD MINING COMPANY, a Delaware Corporation
 P.O. Box 649
 Carlin, Nevada 89802

The claim is 1,375 feet long and 50 feet wide, such that 50 feet is claimed in a northerly direction and 1,325 feet in a southerly direction from the discovery monument, at which the location of location is posted, lengthwise of the claim, together with 25 feet on each side of the discovery monument and centerline of the claim. The general course of the lode deposit and vein is from a northerly to a southerly direction.

The definition of the boundaries of the boundaries of the claim, together with the location of boundary or corner monuments and the marking of such monuments, was completed by the 25th day of July, 1987.

The number, location and markings on each boundary or corner monument is as follows:

Location	Markings	Description
No. 1: SW corner	Point Tee	4" diameter 5" P.V.C. Pipe
No. 2: NE corner	Point Tee	4" diameter 5" P.V.C. Pipe
No. 3: EC corner	Point Tee	4" diameter 5" P.V.C. Pipe
No. 4: SE corner	Point Tee	4" diameter 5" P.V.C. Pipe
No. 5: SW corner	Point Tee	4" diameter 5" P.V.C. Pipe
No. 6: NE corner	Point Tee	4" diameter 5" P.V.C. Pipe

As erected on the ground, each boundary or corner monument is marked as described above by inscribed iron.

The location work consisted of making a claim map as provided in N.E.S. 517.040.

DATED this 31st day of July, 1987
