

# The United States of America

To all to whom these presents shall come, Greeting:

N-48685

135740

WHEREAS

Newmont Gold Company

is entitled to a land patent pursuant to the general mining laws, R.S. 2325, as amended (30 U.S.C. 29), for the land embraced within the POINT TOO lode mining claim designated and described as:

Survey No. 5020, excepting the patented KL-5, KL-6, KL-9 lodes, M.S. 4998, and Railroad Grants 249 and 997571, embracing a portion of section 3, T. 33 N., R. 51 E., and sections 34 and 35, T. 34 N., R. 51 E., Mount Diablo Meridian, situated in an Unknown Mining District, Eureka County, Nevada, the said claims being more particularly described in the official field notes and depicted on the official plat, which are expressly made a part of this patent and copies of which are attached hereto; aggregating .337 acres.

NOW KNOW YE, that there is, therefore, granted by the United States unto Newmont Gold Company the lands above described; TO HAVE AND TO HOLD the said lands with all the rights, privileges, immunities, and appurtenances, of whatsoever nature, thereunto belonging, unto Newmont Gold Company, its successors and assigns, forever; and

EXCEPTING AND RESERVING TO THE UNITED STATES, a right-of-way thereon for ditches or canals constructed by the authority of the United States. Act of August 30, 1890 (43 U.S.C. 945).

IN TESTIMONY WHEREOF, the undersigned authorized officer of the Bureau of Land Management, in accordance with the provisions of the Act of June 17, 1948 (62 Stat. 476), has, in the name of the United States, caused these letters to be made Patent, and the Seal of the Bureau to be hereunto affixed.

GIVEN under my hand, in the TWELFTH day of DECEMBER in the year of our Lord one thousand nine hundred and NINETY and of the Independence of the United States the two hundred and FOURTEENTH

This survey was made with a Hewlett-Packard Electronic Total Station, Model No. 3820A, Serial No. 1650AO0201, which utilizes electronic horizontal and vertical circles that display measured horizontal and zenith angles directly in degrees, minutes and seconds. All lines of this survey were measured with this instrument which uses a laser beam to measure the slope dist. from the instrument toward a reflector located at the point to be measured. The slope dist. is reduced to hor. dist. within the instrument by an electronic computing device and displays the hor. dist. directly to the nearest one thousandth of a ft. The instrument was tested and calibrated on a base line of known length before and after this survey was completed and found to be in good adjustment during the time that this survey was executed.

Bearings referred to in this record were determined by the average of two hor. angle measurements, one with the telescope in the dir. position, and one with the telescope in the rev. position. These angles were referred to the meridian by the following observations:

September 18, 1987 at the W 1/4 sec. cor. Sec. 35, T. 34 N., R. 51 E., M.D.M. at latitude  $40^{\circ}47'27''$  N., and longitude  $116^{\circ}13'06''$  W., elevation approximately 5640 feet above sea level, barometric pressure of 23.45 ins. of mercury, and temperature 55° F., make a series of eight observations on the sun for azimuth at approximately equal time intervals, four each with the telescope in the dir. position and rev. position, observing the horizontal angle right from NGC Control Pt. No. TT-249, and the zenith angle to the center of the sun using a Reckofs Solar Prism.

Mean time of observation  
(120th meridian (P.S.T.) = 7h48m46.6s AM  
Declination of the sun at,  
mean time of observation = N.  $1^{\circ}54'35.5''$   
Mean observed zenith angle  
to the sun's center =  $64^{\circ}40'49.5''$   
Mean horizontal angle right  
from NGC Control Pt. No.  
TT-249 to the sun's  
center =  $364^{\circ}15'33.4''$   
True bearing to NGC Control  
Pt. No. TT-249 =  $5.53^{\circ}12'48''$ E.

<b>LOCATION</b>	
This survey is located in the SE 1/4 of Sec. 34 and SW 1/4 of Sec. 35, T. 34 N., R. 51 E., and NE 1/4 of Sec. 3, T. 33 N., R. 51 E., Mt. Diablo Meridian. The survey of the lode in this survey differs with the respective location to the extent previously noted.	
<b>EXPENDITURES</b>	
The improvements and the value of the labor and improvements made upon or for the benefit of the lode location, embraced in said mining claim by the claimant or its grantors, are as follows:  The discovery monument of the POINT TOO lode, a post and Notice of Location, bears SOUTH, 45.00 ft. dist. from the center of line 2-3. No value.	
The POINT TOO lode is located within an active area of an open pit mine. Estimated material removed, 50,000 cubic yards. Value, \$50,000.00.  No portion of or interest in these improvements has been credited heretofore as patent expenditure to any lode claim.

BUREAU OF LAND MANAGEMENT

CERTIFICATE OF SURVEYOR

Name of Mineral Surveyor

William F. Mueller

Date

March 17, 1988

I HEREBY CERTIFY That in pursuance of an order received from the Bureau of Land Management dated August 25, 1987, at Reno, Nevada, I have carefully executed the survey of the claim of Newmont Gold Company known as the (lode, placer, or mill site) POINT TOO lode situated in See Below Township Range Mt. Diublo Meridian, in the State of Nevada

This survey, designated as number 5020, has been executed by me and under my direction and has been made in strict conformity with said order, the Manual of Instructions for the Survey of Public Lands of the United States, and in specific manner described in the foregoing field notes.

I FURTHER CERTIFY That the labor expended and improvements made upon and for the benefit of the (lode or placer) POINT TOO lode location(s) embraced in the said mining claim by claimants(s) or grantors are fully stated in my report. The character, extent, location, and itemized value are specified in full detail. No portion of, or interest in, said labor and improvements so credited to this claim has been included in the estimate of expenditures upon any other claim.

Situated in Sec. 3, T. 33 N., R. 51 E., and Secs. 34 and 35, T. 34 N., R. 51 E.

**CERTIFICATE OF LOCATION  
AND MINING CLAIM**

**TO ALL WHOM IT MAY CONCERN:**

The undersigned hereby certifies that he has caused to be located the Polar Too lead mining claim in the following quarter sections: SE 1/4 of sec. 35 and SW 1/4 sec. 35, Township 38 North, Range 31 East; SE 1/4 sec. 3 and NW 1/4 sec. 2, Township 31 North, Range 31 East, N.D.E. & M., in the Mogollon Creek Mining District, in Eureka County, in the State of Nevada, on the 19th day of July, 1985.

The name and post office address of the locator is:  
**CARLIS GOLD MINING COMPANY, a Delaware Corporation  
P.O. Box 642  
Carlin, Nevada 89322**

The Claim is 1,375 feet long and 50 feet wide, such that 50 feet is claimed in a northerly direction and 1,325 feet in a southerly direction from the discovery monument, at which the Notice of Location is posted, lengthwise of the Claim, together with 25 feet on each side of the discovery monument and centerline of the Claim. The general course of the lode deposit and veins is true northerly to a southerly direction.

The definition of the boundaries of the boundaries of the Claim, together with the location of boundary or corner monuments and the marking of such monuments, was completed by the 25th day of July, 1985.

The number, location and markings on each boundary or corner monument is as follows:

Location	Markings	Description
No. 1: NW corner	Point Two	# <sup>4"</sup> diameter 5# P.T.C. Pipe
No. 2: NE corner	Point Two	# <sup>4"</sup> diameter 5# P.T.C. Pipe
No. 3: EDC	Point Two	# <sup>4"</sup> diameter 5# P.T.C. Pipe
No. 4: SE corner	Point Two	# <sup>4"</sup> diameter 5# P.T.C. Pipe
No. 5: SW corner	Point Two	# <sup>4"</sup> diameter 5# P.T.C. Pipe
No. 6: USC	Point Two	# <sup>4"</sup> diameter 5# P.T.C. Pipe

As erected on the ground, each boundary or corner monument is marked as described above by inscribable ink.

The location work consisted of making a claim map as provided in U.S.S. §17.04.

DATED this 31<sup>st</sup> day of July, 1985.
