USSRAM Exploration Company caused to be made and performed on or for the benefit of the above claims the annual labor and improvements required by the laws of the United States and the State of Nevada, which work was done in August, 1991 for the assessment year ending at 12:00 o'clock Meridian, September 1, 1991.

There was expended for said labor and improvements, an amount in excess of Seven Thousand Five Hundred Dollars (\$7,500.00+), and they were made at the expense of USSRAM Exploration Company. The annual labor and improvements for said claim consisted of:

Reverse circulation drill hole DV-1 was collared and drilled to a depth of 165 feet on the Owen N-MC 566542 claim and drill hole DV-2 was drilled to a depth of 395 feet on the DV-19 N-MC 566489 claim. The drilling was done by Boyles Bros. Drilling Company under contract with USSRAM Exploration Company. Samples were collected and sent to Skyline Labs, Inc. for assay.

The above named and described unpatented lode mining claims comprise a contiguous group of lode mining claims owned in common by USSRAM Exploration Company. The said labor was performed and improvements made for the benefit of each and all of said mining claims comprising said contiguous group, as a part of a general plan of development and they tend to improve and develop each and all of said mining claims. The amount expended for the value of said labor and improvements is not less than One Hundred Dollars (\$100.00) for each of the mining claims comprising said contiguous group. The said expenditure was made in good faith for the purpose of developing said contiguous group of mining claims and was intended as annual labor and improvements for each and all of the above and described unpatented lode mining claims.
