Work was conducted during the period of June 17th 1991 through August 31st and consisted of more than 2,500 feet of percussion drilling with ore-grade analyses on the recovered samples.

Work was performed on Zeke claims 1, 5, 7, 10, 60, 62, 64, 66, 68, 70, 72 and 88 and had a value in excess of \$30,000.00. All of the aforementioned 194 unpatented lode claims are contiguous and work on any one claim or group of claims tends to develop all of the claims.
