SUMMARY REPORT

This detailed report is filed in compliance with the requirements of Title 30, United States Code, Sections 28-1 for the unpatented Lode Mining Claims listed in Exhibit A that are situated in the Ivanhoe Mining District of Eureka and Elko Counties, Nevada.

The work consisted of geophysical analysis to evaluate the discovery of valuable mineral deposits located on the subject claims and to assist in planing further exploration and development work. All geophysical analysis was performed under the direct supervision of Rosalie C. Moore of P.O. Box 250, Battle Mountain, Nevada 89820. Rosie, a geologist for Touchstone Resources Co. has a B.S. and a M.S. degree in the geologic sciences, with over 10 years experience as a professional economic geologist.

The basic findings of the study indicate that some geologic factors similar to other known mineralized properties in the region occur within the claim group boundary. The information obtained from the geophysical analysis was helpful toward understanding the geology of the area within the subject claim group and will be useful for consideration of future drilling and development targets.

All technical work and results are in the possession of and are considered to be the exclusive property of Touchstone Resources Company with offices at 101-9 Carson Road, Battle Mountain, Nevada 89820. The mailing address for Touchstone Resources Co. is P. O. Box 250, Battle Mountain, Nevada. Phone (702) 635-9040
