Issuance of the first half of the mineral entry final certificate confirms that the proofs of posting and publication, statement of charges and fees, and purchase money have been submitted and accepted. According to the regulations contained in 43 CFR 3851.5, after issuance of the final certificate, annual assessment work is not required. Therefore, recordation of proof of labor and/or notice of intent to hold documents is not required on the above listed millsites and lodes.

Patent may issue if all is found regular and upon demonstration and verification of a discovery of a valuable mineral deposit, or, in the case of mill sites, occupancy or use. This will be verified by a mineral examiner in an on-the-ground examination.

The mineral entry final certificates are typed in original form only, and those documents remain in the official case files.

If you have any questions, please call Elaine Lewis at (702) 785-6537.

Sincerely,

/s/ Marla B. Bohl
