AFFIDAVIT OF ANNUAL ASSESSMENT WORK

STATE OF COLORADO)
COUNTY OF JEFFERSON)
)
)
)

The undersigned, Daniel W. Schneider, certifies that at least One Hundred Dollars (\$100.00) per claim was expended for development, labor and improvements as the annual assessment work for the assessment year ending September 1, 1992 for the following group of mining claims:

<u>Claim Names</u>	<u>County</u>	<u>Book/Pages</u>	<u>BLM</u> <u>Serial Numbers</u>
MM 81-120		211:594-600 and 212:001-033	NMC601195-601234

generally located in Section 32, Township 33 North, Range 51 East, Eureka County, State of Nevada.

Such expenditure was made by Noranda Exploration, Inc., co-owner of the claims.

The work done consisted of geological mapping, gravity and magnetics; 17.5 line mile gravity survey and 1 square mile geologic mapping at 1:6000, which work is more particularly described on attached Exhibits A and B.

The work was performed between September 15, 1991 and August 28, 1992. A total in excess of Four Thousand Dollars (\$4,000.00) was expended on the work which was done by Great Basin Geophysical, 625 Spice Island Drive, Ste. G, Sparks, Nevada 89431 and H. Walter Schull, USGS Mission, Unit 62101, APO, AE 09811-2101, contractors who are qualified to perform such work; and Jeffrey A. Cary, Jeffrey Nicholes, Geologists, and Roger Sharpe, Geophysicist, Noranda Exploration, Inc., 65 North Edison Way, Reno, Nevada 89510, employees who are qualified to perform such work.

All of the aforesaid unpatented mining claims form one contiguous group of claims and work on, or for the benefit of any one claim or group of claims tends to develop all the claims. The work was performed for the purpose of developing the mineral potential of the claims and to maintain and hold such claims.

Dated this 17th day of September, 1992.

My Commission expires: 11/11/95

SUMMARY

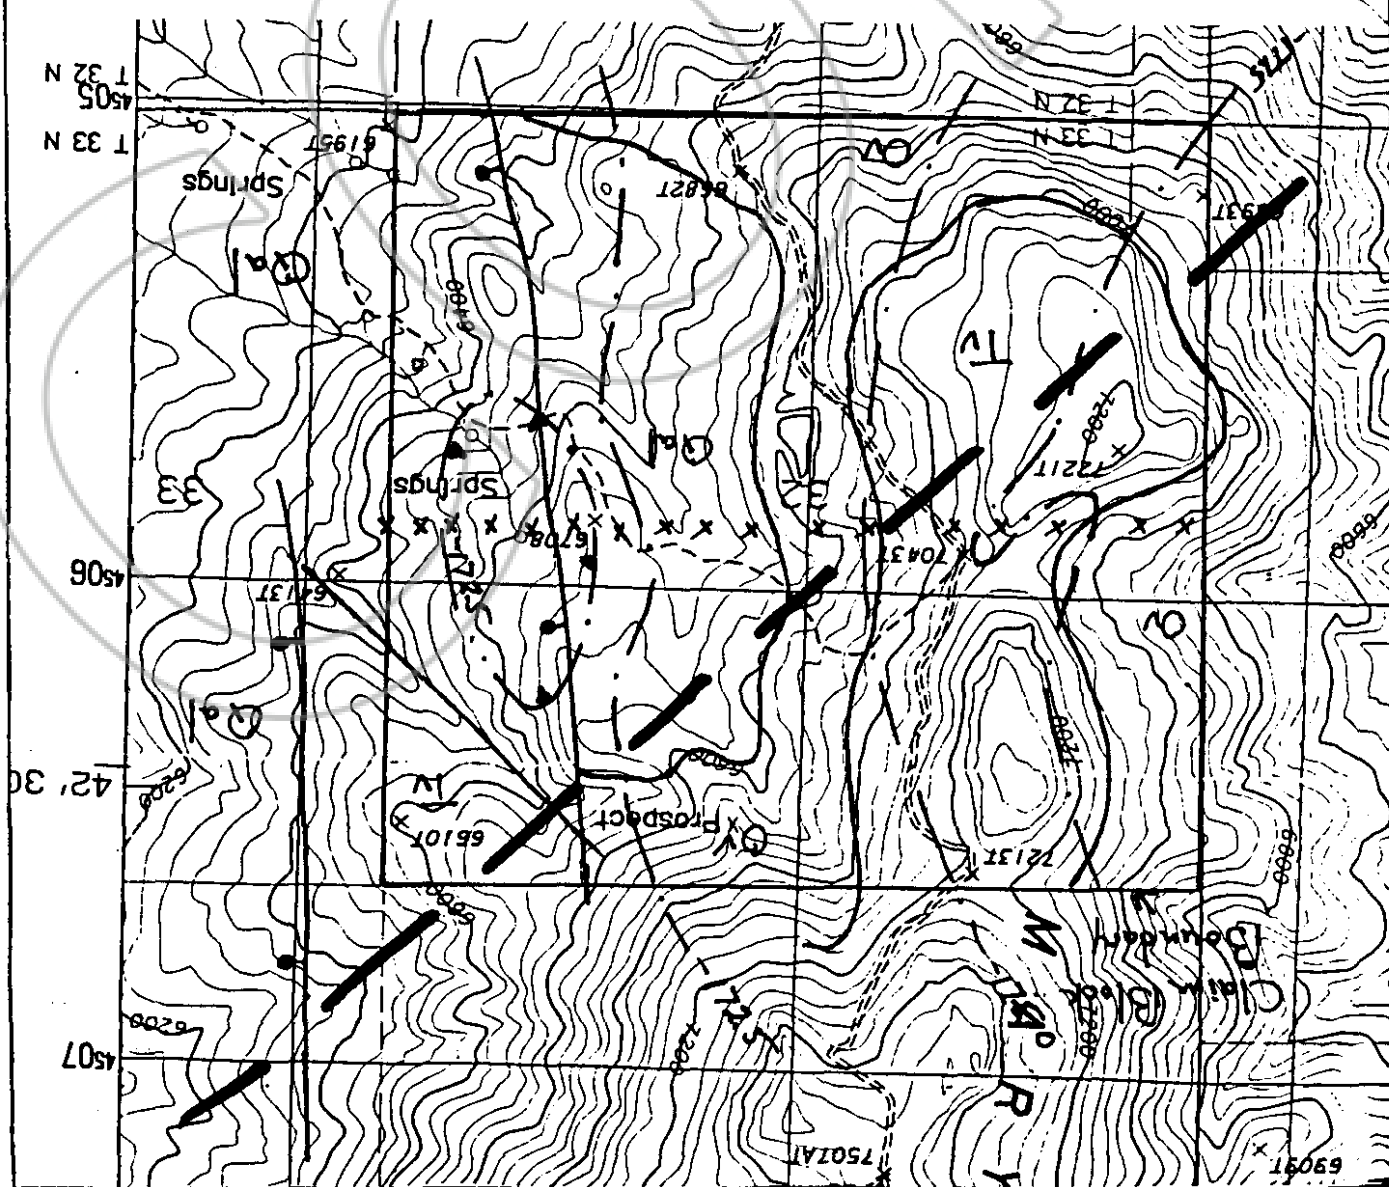

Geologic mapping, in conjunction with gravity and magnetic geophysics surveys, have defined geological environments conducive to the localization of hydrothermal systems. The information strongly suggests further exploration is warranted to fully assess the mineral potential of the property.
