

**AFFIDAVIT OF ANNUAL ASSESSMENT WORK**

142862

for the year ending September 1, 1992

STATE OF NEVADA )  
) ss. )  
) COUNTY OF ELKO )

Scott R. Holmes, the undersigned, being duly sworn, deposes and says and hereby certifies that he is personally acquainted with the

11 unpatented mining claims as listed in Exhibit A:

see Exhibit A attached hereto and incorporated by reference herein.  
Said claims are generally situated in Section(s) 12 (7) T.24 N. R.51 E. (T.34 N. R.52 E.) in the unknown Mining District in Eureka County, State of Nevada.

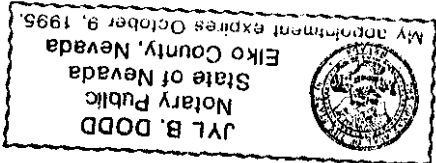

And that between the 1st day of September, 1991 and the 1st day of September, 1992, at least One Hundred dollars, (\$100.00) per claim was expended for labor or improvements or both, and that they were made and performed at the expense of Western States Minerals Corporation, 4975 Van Gordon Street, Wheat Ridge, Colorado 80033, the Lessee of said mining claims, on behalf of D.J. & L.W. Garrick, the Owners of said mining claims, for the purpose of complying with the laws of the United States pertaining to assessment or annual work, and that Mark Reischman & American Assay Labs were the Person(s) or contractor(s) employed, by Western States Minerals Corporation, who labored upon said claims, performed said labor and improvements between August 1, 1992 and August 30, 1992; the labor performed or improvements made consisted of geologic mapping and rock chip sampling for a total expenditure of \$1875.00, the labor or improvements as described above, was performed on each claim as listed in Exhibit A. (Attached is a summary report as required by Title 30 U.S.C., Sec. 28-1)

The foregoing work was performed and is intended to hold the above-described mining claims during the annual assessment period ending at noon, September 1, 1992.

The forgoing Affidavit of Annual Assessment Work was subscribed and sworn to before me this 20th day of October, 1992 by Scott R. Holmes.

affiant  
*Scott R. Holmes*

# SUMMARY REPORT

OF THE 1992 ASSESSMENT WORK ON THE  
QUEEN ANN & KING RICKY LODE CLAIMS  
EUREKA COUNTY, NEVADA

This detailed report is filed in compliance with the requirements of Title 30, U.S.C. Section 28-1 for the QUEEN ANN & KING RICKY claim group totaling 11 unpatented lode mining claims. The claims, are located in Eureka County, Nevada, and are more particularly described in the accompanying Affidavit of Annual Assessment Work.

## DESCRIPTION OF WORK

A detailed outcrop geologic map was made at the scale of 1"=500'. Careful note was made of lithology, bedding attitudes, alteration, and other important geologic features.

The location of the work encompassed both the perimeter and interior of the claim block to such an extent as to insure an accurate geologic interpretation of the property.

A sampling program was undertaken with a total of 35 rock chip samples being taken. Samples were assayed for a multiple suite of elements. The results of the sampling program indicated areas of anomalous values to an extent that further work is warranted and planned.

The mapping and sampling programs were started on August 1, 1992 and completed by August 30, 1992, with one more day spent compiling data and drafting maps.

The results of the above work indicated areas of alteration and geochemically anomalous values. A minimum of 4 drill holes were recommended to further test the potential of the property.

The mapping and interpretation was done by Mark Reichman, whose address is, 11570 Hearpine St. Reno, Nevada 89506. Mr. Reichman is a consulting geologist and has a Bachelor of Science Degree in Geology from Fresno, California. Mr. Reichman has a total of seven years experience in the field of geology. Assay results were obtain through American Assay Lab, P.O. BOX 71060, Reno, Nevada 89570.

The actual cost or value of the above work exceeded \$ 1800.00

Let it be known that a diligent effort is being made to delineate, extend, and develop ore reserves on the claims.

Respectfully Submitted,

Scott R. Holmes - Landman
