IN REPLY REFER TO:
M.S. No. 5065

June 26, 1998

Memorandum

To: Public Contact and Records Management Section

From: Acting Chief, Cadastral Survey

Subject: Correction of Record, Mineral Survey No. 5065, Nevada

Mineral Survey No. 5065, Nevada, contains a clerical error. The letter "F" was incorrectly omitted from the names of the Golden April #23F lode (NMC-450153) and the Golden April #28F lode (NMC-450158) in all reference to these lodes throughout the field notes and on the plat.

The correct names of these claims are clearly noted on the certified copy of each location certificate, which have been filmed at the end of the field notes and become a part of the official record.

The field notes and plat of Mineral Survey No. 5065, Nevada, approved April 6, 1992 are hereby corrected by this memorandum. This memorandum and the original plat, annotated with reference to this memorandum, are to be transmitted to RS-150, where they will be refilmed. The memorandum should be filmed adjacent to the annotated original plat of this survey. Both will be returned to NV-942 to be included as part of the official record.
