The cemetery does not line up exactly north/south. It could be on a slightly north west/southeast axis, or a northeast/southwest axis. It is not possible to tell without some sophisticated equipment.

Dimensions given are of the Fence which surrounds the cemetery.

This is obviously a rough diagram or chart of the Cortez Cemetery. It should, however, serve as some record of this burial ground where there seems to be none, either in Lander County or in Eureka County.

Hopefully someone can eventually establish with certainty which county The Cemetery is in. The geobase-
ical Cortez Quadrangles of
1938 and 1986 differ sig-
nificantly as to the location
of the county line, and other
maps are contradictory as well.
I think it is probably in Lauder,
but it needs to be confirmed!
