Form 1860-8

(July 1987)

To all to whom these presents shall come, Greeting:

N-56809

**WHEREAS** 

#### Newmont Gold Company

is entitled to a land patent pursuant to the general mining laws, R.S. 2325, as amended (30 U.S.C. 29) for the lands embraced within the 2NVE No. 9 lode mining claim designated and described as:

A portion of Mineral Survey No. 5044, within Sections 25 and 36, Township 36 North, Range 49 East, and Sections 30 and 31, Township 36 North, Range 50 East, Mount Diablo Meridian, in the Unknown (Blue Star) Mining District, Eureka County, Nevada, the said claim being more particularly described in the official field notes and depicted on the official plat, which are expressly made a part of this patent and copies of which are attached hereto; but excluding from this patent that portion of said mineral survey within Railroad Grant 160, Section 25, Township 36 North, Range 49 East, and Section 31, Township 36 North, Range 50 East; and further excepting and excluding that portion of Mineral Survey No. 5062 within Section 30, Township 36 North, Range 50 East; containing 16.304 acres.

NOW KNOW YE, that there is, therefore, granted by the UNITED STATES unto Newmont Gold Company the lands above described; TO HAVE AND TO HOLD the said lands with all the rights, privileges, immunities, and appurtenances, of whatsoever nature, thereunto belonging, unto Newmont Gold Company, its successors and assigns, forever; and

EXCEPTING AND RESERVING TO THE UNITED STATES, a right-of-way thereon for ditches or canals constructed by the authority of the United States. Act of August 30, 1890 (43 U.S.C. 945).

[SEAL]

IN TESTIMONY WHEREOF, the undersigned authorized officer of the Bureau of Land Management, in accordance with the provisions of the Act of June 17, 1948 (62 Stat. 476), has, in the name of the United States, caused these letters to be made Patent, and the Seal of the Bureau to be hereunto affixed.

This survey was made with a Hewlett-Packard Electronic Total Station, Model No. 3820A, Serial No. 1650A00201, which utilizes electronic horizontal and vertical circles that display measured horizontal and zenith angles directly in degrees, minutes, and seconds. All lines of this survey were measured with this instrument which uses a laser beam to measure the slope dist. from the instrument toward a reflector located at the point to be measured. The slope dist. is reduced to hor. dist. within the instrument by an electronic computing device and displays the hor. dist. directly to the nearest thousandth of a ft. The instrument was tested and calibrated on a base line of known length before and after this survey was completed and found to be in good adjustment during the time that this survey was executed.

Bearings referred to in this record were determined by the average of two hor, angle measurements, one with the telescope in the dir. position, and one with the telescope in the rev. position. These angles were referred to the meridian by the following observations:

April 9, 1990 at Cor. No. 2 of the 2NVE No. 15 lode, at latitude 40°57′13" N., and longitude 116°23′10" W., elevation approximately 5520 ft. above sea level, barometric pressure of 22.7 ins. of mercury, and temperature 62° F., make a series of eight observations on the sun for azimuth at approximately equal time intervals, four each with the telescope in the dir. position and rev. position, observing the horizontal angle right from Cor. No. 1 of the 2NVE No. 15 lode and the zenith angle to the center of the sun.

Mean time of observation
(120th meridian (P.S.T.) = 2:15:10.0 P.M.

Declination of the sun at
mean time of observation = N. 7°44'37.7"

Mean observed zenith angle
to the sun's center = 46°41'30.0"

Mean horizontal angle right
from Cor. No. 1 of the
2NVE No. 15 lode to the
sun's center = 144°42'07.0"

True bearing to Cor. No. 1
of the 2NVE No. 15 lode = S. 89°38'17" E.

Form 9600-20 (November 1987) USDI-BLM

All lines and connections of this survey were run by direct methods except as noted.

The magnetic declination observed at each cor. uniform value of 17°30' E.

The improvements are in progress for the development of the ten lodes of this survey, which are

all the contiguous lode claims owned in common within the range of benefit of said improvements.

Five hundred dollars or over has been expended in these improvements in such a manner as tends to the development of each lode of this survey, subsequent to its location and to the time since which common ownership and contiguity have prevailed; therefore, as undivided one-tenth interest in their value is hereby credited to each of the lodes.

No portion of or interest in these improvements has been credited heretofore as patent expenditure to any lode claims.

#### OTHER CORNER DESCRIPTIONS AND SUPPLEMENTAL DATA

I, William F. Mueller, HEREBY CERTIFY that in pursuance of an order received from the Bureau of Land Management, at Reno, Nevada, dated March 13, 1990, I have carefully executed the survey of the claim of Newmont Gold Company known as the 2NVE No. 5, 2NVE No. 6, 2NVE No. 7, 2NVE No. 8, 2NVE No. 9, 2NVE No. 10, 2NVE No. 15, 2NVE No. 16, 2NVE No. 17, 2NVE No. 18 lodes, situated in secs. 25 and 36, Township 36 North, Range 49 East and secs. 30 and 31, Township 36 North, Range 50 East, Mount Diablo Meridian, County of Eureka, in the state of Nevada.

This mineral survey, designated as number 5044, has been executed by me and under my direction and has been made in strict conformity with said order, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

I FURTHER CERTIFY that the labor expended and improvements made upon and for the benefit of the lode location(s) embraced in the said mining claim by claimant(s) or grantors are fully stated in my report. The character, extent, location, and itemized value are specified in full detail. No portion of, or interest in, said labor and improvements so credited to this claim has been included in the estimate of expenditures upon any other lode.
