### **QUITCLAIM DEED WITH RESERVED ROYALTY**

THIS QUITCLAIM DEED WITH RESERVED ROYALTY is made this 31 day of March, 2003 between KM EXPLORATION LTD., a Nevada limited liability company, doing business as NEVADA GOLD VENTURES ("Grantor"); and TONÉ RESOURCES (U.S.) INC., a Nevada corporation, whose address is 2244 - 32nd Ave. W., Vancouver, British Columbia, Canada V6L 2B2 ("Grantee").

### **RECITALS**

1. Transfer Unpatented Mining Claims. Grantor, in consideration of the sum of TEN DOLLARS (\$10.00) and other valuable consideration paid to it by Grantee, does hereby remise, release and forever quitclaim unto Grantee all of Grantor's right, title, and interest in and to the patented lode mining claims situated in the unnamed Mining District, Eureka County, Nevada, which are more particularly described on Exhibit A attached hereto (the "Claims").

TOGETHER with all and singular the tenements, hereditaments and appurtenances thereunto belonging, in anywise appertaining, and the reversion and reversions, remainder and remains, rents, issues and profits thereof.

TOGETHER with all minerals and all veins and lodes of mineral-bearing rock therein and all dips, strikes and angles thereof.

TO HAVE AND TO HOLD all of the right, title and interest of Grantor in and to said claims, together with the appurtenances, unto Grantee its successors and assigns forever.

2. Reserve Royalty Interest. Grantor reserves to itself a royalty on production equal to one percent (1%) of net smelter returns. The term "net smelter returns" as used herein shall mean the net proceeds received by Grantee from the sale of minerals from the Claims after deduction for all of the following:

a. Cost of smelting costs, treatment charges and penalties including, but without being limited to metal losses, penalties for impurities and charges or deductions for refining, selling, and transportation from smelter to refinery and from refinery to market; provided, however, in the case of leaching operations, all processing and recovery costs incurred by (the product) beyond the point at which the metal being treated is in solution shall be considered as treatment charges (it being agreed and understood, however, that such processing and recovery costs shall not include the cost of mining, crushing, dump preparation, distribution of leach solutions or other mining and preparation costs up to the point at which the metal goes into solution);

b. Cost of transporting mineral product from the concentrator to a smelter or other place of treatment; and

c. Production taxes, severance taxes and sales, privilege and other taxes measured by production or the value of production.

In the event smelting or refining are carried out in facilities owned or controlled, in whole or in part, by Grantee, charges, costs and penalties for such operations shall mean the amount Grantee would have incurred if such operations were carried out at facilities not owned or controlled by Grantee then offering comparable services for comparable products on prevailing terms.

Payment of production royalties shall be made not later than thirty (30) days after the end of each calendar quarter. All payments shall be accompanied by a statement explaining the manner in which the payment was calculated.

3. Rights Inspection. Grantee agrees to keep accurate books of account reflecting the mining and processing operations with respect to the Claims and the computation of Grantee's royalty interest. Grantor shall have the right, either personally or through a qualified accountant of its choice, and at its cost, to examine and inspect the books and records of Grantee pertaining to the mining, milling and shipping operations of Grantee as they relate to the Claims.

IN WITNESS WHEREOF, Grantor has hereunto set its hand the day and year first above written.
