RE: Mining claims: "LS" lode group (maps: Eureka County file #208076, 208086,  
208096, 208100, 208117, 208130, 208137, 208147, 208154, 208164).

Dear sir,

As you may know, our office prepares compilation sheets, by township, of mining claims filed by the claimant in the office of the Eureka County Recorder. We have received a copy of your maps for the above group, and call to your attention the following.

On each of the separate maps listed above, the range is written as R.53E., while the certificates describe the claims as within R. 54E. Your reference to the prior located FMC group leads us to believe R.54E. was intended. Additional FMC claims, located by Phelps Dodge Exploration Corp. were filed in 1998, covering much of the same ground occupied by your group. A copy of the state law on map requirements (N.R.S. 517.040) is enclosed. Please review with particular respect to boundary monuments numbering and position, and quarter-section description and display. On some of the maps, the tie is to a presumed monument not described, and off the page. While the vicinity claim map is helpful, it is not, apparently, a recorded document, and cannot therefore be used to fulfill the requirements of N.R.S. 517.040. It likewise incorrectly refers to R.53E. Other particular ambiguities: on map #208100, an out of place Sec. 36 appears, and, similarly, a Sec.34 appears out of place on map #208137, and a claim 85 is labeled 185 on map # 208164. We have plotted the group according to what we feel was intended.

If you feel any additional or corrected information should be filed, please deliver to the address of the Eureka County Recorder, shown below.

Sincerely,

*William A. Nisbet*
