

The nearest public land survey point lies whereas, the corner #2 of Titan #15 is approximately 518' from the common corner of sections 23, 24, 25 and 26.

Scale: 1" equals 500'

All claims are approximately 1,500 feet long and 600 feet wide, location monuments are on the center line of the length and 300 feet from each side.

Note --- The SW to NE trend of Titan 16 and 15 would represent the normal extension of existing claim name ASS 37 at the same degree.
