Gentlemen:

Patent No. 27-95-0037 was issued on September 26, 1995, and sent to you by cover letter dated October 17, 1995. Subject patent is enclosed evidencing that page two is corrected as to the year of Independence which now reads twentieth instead of nineteenth. When you record this replacement patent in the county, it is advised to also record this cover letter.

We are sorry if this has caused you any inconvenience and if you have any further concerns, please do not hesitate to call Elaine Lewis at (702) 785-6537.

Sincerely,

  
Judith A. Moffitt, Chief

# The United States of America

To all to whom these presents shall come, Greeting:

N-53621

WHEREAS

Newmont Gold Company

is entitled to a land patent pursuant to the general mining laws, R.S. 2325, as amended (30 U.S.C. 29) for the lands embraced within the PETE NO. 7, PETE NO. 8, PETE NO. 9, PETE NO. 15, PETE NO. 16, and PETE NO. 17 lode mining claims designated and described as:

Mineral Survey No. 5039, within Sections 13 and 24, Township 35 North, Range 50 East, and within Sections 19 and 30, Township 35 North, Range 51 East, Mount Diablo Meridian, in the Unknown and Lynn Mining Districts, Eureka County, Nevada, the said claims being more particularly described in the official field notes and depicted on the official plat, which are expressly made a part of this patent and copies of which are attached hereto; but excluding and excepting from this patent that portion of Section 13 within Railroad Grant 1033552 and that portion of Section 19 within Railroad Grant 1019656; aggregating 117.305 acres.

NOW KNOW YE, that there is, therefore, granted by the UNITED STATES unto Newmont Gold Company the lands above described; TO HAVE AND TO HOLD the said lands with all the rights, privileges, immunities, and appurtenances, of whatsoever nature, thereunto belonging, unto Newmont Gold Company, its successors and assigns, forever; and

EXCEPTING AND RESERVING TO THE UNITED STATES:

1. A right-of-way thereon for ditches or canals constructed by the authority of the United States. Act of August 30, 1890 (43 U.S.C. 945).

2. All leasing act minerals (including geothermal steam and associated geothermal resources) for that portion of land within Mineral Survey No. 5039, Section 30, T. 35 N., R. 51 E., Mount Diablo Meridian, Nevada, and the right of the United States, its lessees, permittees, and licensees to enter upon the land, prospect for, drill, mine, treat, store and remove the same, and to use so much of the surface and subsurface of said lands as may be necessary for such purposes, in accordance with the provisions of the Act of August 13, 1954, as amended (30 U.S.C. 521 et seq. and 1002); and,

SUBJECT TO those rights for oil and gas granted to Yates Petroleum Corporation, its successors or assigns, by oil and gas lease N-53875, pursuant to the Act of February 25, 1920, as amended (30 U.S.C. 226). The mineral patent is issued subject to the rights of prior permittees or lessees to use so much of the surface of said lands as is required for leasing act operations, without compensation to the patentee for damages resulting from proper leasing act operations, for the duration of oil and gas lease N-53875, and any authorized extension of that lease, pursuant to the Act of August 13, 1954, as amended (30 U.S.C. 521 et seq.).

Mineral Survey No. 5039

F E E T

This survey was made with a Hewlett-Packard Electronic Total Station, Model No. 3820A, Serial No. 1650A00201, which utilizes electronic horizontal and vertical circles that display measured horizontal and zenith angles directly in degrees, minutes, and seconds. All lines of this survey were measured with this instrument which uses a laser beam to measure the slope dist. from the instrument toward a reflector located at the point to be measured. The slope dist. is reduced to hor. dist. within the instrument by an electronic computing device and displays the hor. dist. directly to the nearest one thousandth of a ft. The instrument was tested and calibrated on a base line of known length before and after this survey was completed and found to be in good adjustment during the time that this survey was executed.

Bearings referred to in this record were determined by the average of two hor. angle measurements, one with the telescope in the dir. position, and one with the telescope in the rev. position. These angles were referred to the meridian by the following observations:

October 10, 1989 at Cor. No. 4 of the PETE No. 17 lode at latitude  $40^{\circ}53'41''$  N., and longitude  $116^{\circ}17'37''$  W., elevation approximately 6105 ft. above sea level, barometric pressure of 23.98 ins. of mercury, and temperature  $65^{\circ}$ F., make a series of eight observations on the sun for azimuth at approximately equal time intervals, four each with the telescope in the dir. position and rev. position, observing the horizontal angle right from Cor. No. 1 of the PETE No. 17 lode and the zenith angle to the center of the sun.

Mean time of observation  
 (120th meridian (P.S.T.) =  $7:41:35.50$  A.M.  
 Declination of the sun at  
 mean time of observation =  $S. 6^{\circ}47'47.5''$   
 Mean observed zenith angle  
 to the sun's center =  $71^{\circ}02'24.5''$   
 Mean horizontal angle right  
 from Cor. No. 1 of the  
 PETE No. 17 lode to the  
 sun's center =  $118^{\circ}27'17''$   
 True bearing to Cor. No. 1  
 of the PETE No. 17 lode =  $N. 0^{\circ}54'32''$  W.

CERTIFICATE OF MINERAL SURVEYOR

I, William F. Mueller, HEREBY CERTIFY that in pursuance of an order received from the Bureau of Land Management, at Reno, Nevada, dated September 27, 1989, I have carefully executed the survey of the claim of Newmont Gold Company known as the PETE Nos. 5-9 and PETE Nos. 13-17 lodes situated in secs. 13 and 24, Township 35 North, Range 50 East and secs. 19 and 30, Township 35 North, Range 51 East, Mount Diablo Meridian, County of Eureka, in the State of Nevada.

This mineral survey, designated as number 5039, has been executed by me and under my direction and has been made in strict conformity with said order, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

I FURTHER CERTIFY that the labor expended and improvements made upon and for the benefit of the lode location(s) embraced in the said mining claim by claimant(s) or grantors are fully stated in my report. The character, extent, location, and itemized value are specified in full detail. No portion of, or interest in, said labor and improvements so credited to this claim has been included in the estimate of expenditures upon any other claim.
