# Application for Agricultural Use Assessment

**Please Read Carefully**

If land is twenty (20) acres or more, application must be made to the Assessor in the county where property is located.

If less than twenty (20) acres, application must be made to the Department of Taxation, 1550 College Parkway, Carson City, Nevada 89701.

## **Qualifications for the Agricultural Use Assessment**

1. The land has been devoted exclusively for at least three (3) consecutive years immediately preceding the assessment date to Agricultural use.
2. The land earned a minimum gross income of \$5,000 from agricultural use for the calendar year preceding the assessment date. Proper proof of income must accompany each application.
3. Agricultural land used for feeding, breeding, management and sale of livestock, poultry, or the produce thereof, must be of sufficient size and capacity to produce more than one-half of the feed requirements.
4. Application must be filed on or before June 1<sup>st</sup> of any year.

**Note: Residential use or support areas will not be agriculturally assessed.**

## **Restrictions which may cause the removal of Agricultural use assessment.**

1. The physical alteration of the surface of the property enabling it to be used for a higher use.
2. The recording or existence of a final map or parcel map which creates one or more parcels not intended for agricultural use.
3. A change in zoning to a higher use made at the request of the owner.
4. Any use other than agricultural use may be the cause for the removal of the agricultural assessment.

**Note: After the original filing, it may not be necessary to file again unless there is a change in ownership or conversion to a higher use of any portion of the land. However, the County Assessor or the Dept. of Taxation may request a new application with supporting evidence and documentation be submitted to determine continuous use. Applications which are not completed and returned, along with other necessary supporting documentation, may result in the cancellation of the agricultural assessment.**

## **Effect of approval of agricultural use assessment**

If approved, the assessment will be based on the agricultural use of the land rather than the full cash value of the land which may result in a higher assessment. Residential use areas will be assessed at full cash value. If the property converts in whole or part to a higher use, the owner will become liable for **deferred taxes** based upon the difference between the agricultural use value and the full cash value for a period not to exceed seven years. It is the property owner's responsibility to notify the Assessor in writing within 30 days if any portion of this land is converted to a higher use. Failure to promptly notify the Assessor of a use change will result in a 20 percent penalty on any deferred taxes that may become due. Agriculturally assessed properties may be subject to liens for undetermined amounts.
