SCHEDULE B

NET SMELTER RETURNS

For the purposes of this Agreement the following words and phrases shall have the following meanings, namely:

- (a) "Net Smelter Returns" shall mean the gross proceeds received by the Optionee in any year from the sale of Product from the mining operation on the Property, less successively:
 - (i) the cost of transportation of such Product to a smelter or other place of treatment, and
 - (ii) smelter and treatment charges;
- (b) "Ore" shall mean any material containing a mineral or minerals of commercial economic value mined from the Property; and
- (c) "Product" shall mean Ore mined from the Property and any concentrates or other materials or products derived therefrom, but if any such Ore, concentrates or other materials or products are further treated as part of the mining operation in respect of the Property, such Ore, concentrates or other materials or products shall not be considered to be "Product" until after they have been so treated.

2. For the purposes of calculating the amount of Royalty payable to the Optionor hereunder, if, after the Commencement of Commercial Production, the Optionee sells any Product to one of its subsidiaries or affiliates, and if the sale price of such Product is not negotiated on an arm's-length basis, the Optionee shall for the purposes of calculating Net Smelter Returns only and notwithstanding the actual amount of such sale price, add to the proceeds from the sale of such Product an amount which would be sufficient to make such sale price represent a reasonable net sale price for such Product as if negotiated at arm's length and after taking into account all pertinent circumstances including, without limitation, then current market conditions relating to Ore, concentrates or products similar to such Product.

3. The Optionee shall by notice inform the Optionor of the quantum of such reasonable net sale price and, if the Optionor does not object thereto, within 60 days after receipt of such notice, said quantum shall be final and binding for the purposes of this Agreement.

4. The Optionee may remove reasonable quantities of Ore and rock from the Property for the purpose of bulk sampling and of testing, and there shall be no Royalty payable to the Optionor with respect thereto unless revenues are derived therefrom.

The Optionee shall have the right to commingle with ores from the Property, ore produced from other properties, provided that prior to such commingling, the Optionee shall adopt and employ reasonable practices and procedures for weighing, determination of moisture content, sampling

and assaying, as well as utilize reasonable accurate recovery factors in order to determine the amounts of products derived from, or attributable to Ore mined and produced from the Property. The Optionee shall maintain accurate records of the results of such sampling, weighing and analysis as pertaining to ore mined and produced from the Property
