SURVEYOR'S CERTIFICATE

I, John D. Harmening, A Professional Land Surveyor (PLS 12062) Licensed in The State of Nevada, certify that:

- 1) This plat represents the results of a survey conducted under my direct supervision at the instance of Nevada Gold Ventures, LLC (owner)
- 2) The mining claims surveyed lie within T17N, R51E, MDM, Sections 1, 12, 13 and T17N, R52E, MDM, Sections 6, 7 & 18; and the survey was completed on September 12th, 2015.
- 3) This plat complies with applicable statutes of this state and any local ordinances in effect on the date that the survey was completed, and the survey was conducted in accordance with Chapter 625 of the Nevada Administrative Code.
- 4) The monuments depicted on the plat are of the character shown, occupy the positions indicated and are of sufficient number and durability.
- 5) The Section lines protracted on this map are from the BLM GCDN unless otherwise noted.
- 6) This document contains no personal information as defined by NRS 603A.040

Diagram illustrating a rectangular survey plat with dimensions 1500.00' WEST and 600.00' NORTH. The plat is bounded by four corner monuments labeled No. 1, No. 2, No. 3, and No. 4. A location monument is shown on the eastern boundary line, 5 feet from the end line. Annotations specify that all location monuments are 5 feet from the end line or as noted on the plat, and all corner monuments and location monuments are 4x2x2 wooden posts.

1. The first step in the process is to identify the problem or issue that needs to be addressed. This involves gathering information and understanding the context of the problem.

2. Once the problem is identified, the next step is to define the objectives and goals of the project. This helps to clarify what needs to be achieved and provides a clear direction for the team.

3. The third step is to develop a plan or strategy to address the problem. This involves breaking down the problem into smaller, manageable tasks and determining the resources needed to complete them.

4. The fourth step is to implement the plan. This involves putting the strategy into action and monitoring progress regularly to ensure that the project is on track.

5. The final step is to evaluate the results of the project. This involves assessing the outcomes against the objectives and goals and identifying any areas for improvement.
